

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

#### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

#### **About Google Book Search**

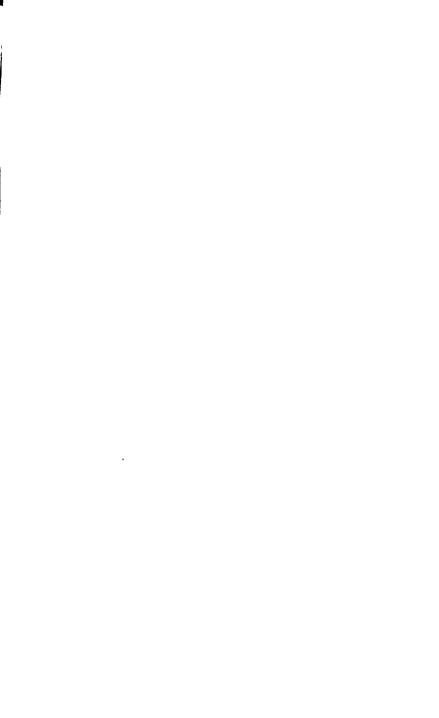

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

# THE ATLANTIC MONTHLY 2000 1886 2000 1886

FOR 1886 3

Will contain the following Serial Stories:-

#### IN THE CLOUDS,

By CHARLES EGBERT CRADDOCK,

Author of "The Prophet of the Great Smoky Mountains," "In the Tennessee Mountains," etc.

HENRY JAMES.

["The Princess Casamassima" will continue until August, 1886.]

#### THE GOLDEN JUSTICE,

By WILLIAM H. BISHOP.

Author of "The House of a Merchant Prince."

JAMES RUSSELL LOWELL

Will write for the ATLANTIC MONTHLY for 1886.

#### JOHN FISKE

Will contribute six or more papers on United States History, covering the period from the Revolution to the adoption of the Constitution. These papers discuss a portion of American history very imperfectly known, and cannot fail to be exceedingly engaging by reason of Mr. Fiske's ample knowledge and singularly clear style.

#### PHILIP GILBERT HAMERTON.

The distinguished English writer, will furnish a series of articles comparing French and English people, character, opinions, customs, etc. Mr. Hamerton is peculiarly qualified, by his intimate knowledge of the French as well as of his fellow-countrymen, to write on this subject.

#### THOMAS BAILEY ALDRICH.

Author of "Mariorie Daw." etc., will contribute some Short Stories.

#### LIVING QUESTIONS.

The important political subjects which will come conspicuously before the public in the immediate future—Civil Service Administration and Reform, the Silver Question, the Tariff, our Indian Policy, and questions in Social Science—will be discussed by men competent to treat them adequately and impartially.

The various features of THE ATLANTIC which have secured and maintained its remarkable prestige as a literary magazine will be carefully pro-

vided for during the coming year.

#### TERMS:

\$4.00 a year, in advance, POSTAGE FREE; 35 cents a number. With superb life-size portraits of Hawthorne, Emerson, Longfellow, Bryant, Whittier, Lowell, or Holmes, \$5.00; each additional portrait. \$1.00.

Postal Notes and Money are at the risk of the sender, and therefore remit-tances should be made by money-order, draft, or registered letter, to

## STATESMAN'S YEAR-BOOK

Statistical and Historical Annual of the States of the Civilized World.

FOR THE YEAR 1886.

#### TWENTY-THIRD ANNUAL PUBLICATION.

REVISED AFTER OFFICIAL RETURNS. 12mo. \$3.00.

"It has earned the reputation of being the most accurate and complete manual that exists of its kind, and it is simply indispensable. If I could have but one book of reference for the actual state of the world. I should choose this."-G. W. S. in the New York Tribune.

"Not only statesmen, but all men who desire to keep pace with the march of events with political and economical changes, in fact with the general progress of the world, will find the Statesman's Year-Book an indispensable guide."—New York Tribune.

#### MACMILLAN & CO., NEW YORK.

NOW PUBLISHING. 19MO. PRICE ONE DOLLAR FACH.

### THE ENGLISH CITIZEN.

A SERIES OF SHORT BOOKS ON HIS RIGHTS AND RESPONSIBILITIES.

This series is intended to meet the demand for accessible information on the ordinary conditions and the current terms of our political life. The affairs of business, contact with other men, the reading of newspapers, the hearing of political speeches, may give a partial acquaintance with such matters, or at least stimulate curiosity as to special points. But such partial acquaintance with the most important facts of life is not satisfactory, although it is all that the majority of men find within their reach.

#### THE FOLLOWING ARE THE TITLES OF THE VOLUMES:

Central Government. H. D. Traill, D.C.L.
The Electorate and the Legislature. Spencer Walpole.
Local Government. M. D. Chalmers.
Justice and Police. C. P. Filbert.
The National Budget: The National Debt, Taxes and Rates, A. J. Wilson.
The State and Education. Henry Craik.
The Poor Law. T. W. Fowle, M.A.
The State in its Relation to Trade. T. H. Farrer.
The State in Relation to Labor. W. Stanley Jevons, LL.D.

The Land Laws. F. Polick.
The State and the Church: Hon. Arthur Elliot, M. P.
Foreign Relations. Spencer Walpole.

India. J. S. Cotton,
Colonies and Independencies. E. J. Payne,
The Punishment and Prevention of Crime. Sir Edmund Du Cane.

The National Defences. Lieutenant-Colonel Maurice.

MACMILLAN & CO., NEW YORK.

#### WEBSTER'S UNABRIDGED

With or without Patent Index.

## JUST ADDED

### GAZETTEER

Containing over 25,000 Titles, describing the Countries, Cities, Towns, and Natural Features of every part of the Globe.

IT IS THE STANDARD of authority in The Government Printing Office. and with the United States Supreme Court. Recommended by the State Supts. Schools in 36 States. and by Over Fifty College Presidents. For supplying Schools, Every State Purchase has been of Webster. The London Times, of England. Says: It is the best Dictionary of the Language. Hon. Geo. Bancroft, the Historian. Says: It is superior to all others. Toronto Globe, Canada, says : Its place is in the very highest rank. Similar testimonials have been given

by hundreds of the best American and European Scholars. GET THE BEST.

The LATEST EDITION has 118,000 Words, and 3000 Engravings, (3000 more Words and nearly three times the number of Engravings found in any other American Dicty.) Its brief Biographical Dictionary, (nearly 10,000 names) is a valuable feature Published by G. & C. MEERRIAM & CO., Springfield, Mass.

## JOSEPH GILLOTT'S STEEL PENS.

Gold Medal, Paris Exposition, 1878.

For Artistic Use in Fine Drawings, Nos. 659 (The celebrated Crowquill), 290 and 291.

#### CHRONOLOGICAL CYCLES, ETC.

Dominical Letter	C	Julian Period
Solar Cycle	19	Jewish Era
Lunar Cycle, or Golden Number	6	Mohammedan Era1304
Epact	25	Byzantine Era
Roman Indiction	14	Independence of the United States. 110-111
		•

The Solar Cycle embraces a period of 28 years.

The Roman Indiction is a cycle of 15 years.

The Lunar Cycle is 235 synodical revolutions of the moon = 19 years.

The Epact denotes the age of the moon on the first day of January.

#### ECLIPSES IN THE YEAR 1886.

There will be two eclipses in the year 1886, both of the sun.

1. The first is an Annular or Ring-form Eclipse of the Sun, March 5th, afternoon, visible at Washington as a partial eclipse. This eclipse is visible only for a short time before sunset, beginning at New Orleans, at 4.55; at St. Louis, 4.51; at Chicago, 4.56; at Cincinnati, 4.54; at Washington, 5.45, or about 10 minutes before sunset. East and north of Washington the eclipse cannot be seen.

2. The second is a Total Eclipse of the Sun, August 29th, morning. Will be total in the Atlantic Ocean near Western Africa. At Washington, D.C., it begins at 6 A.M. Middle of eclipse, 6.24; ends at 6.48 A.M. At New Orleans begins at 4.42 A.M.; middle, 5.19; ends, 5.57. At Cincinnati begins at 5.27; middle, 5.46; ends, 6.05 A.M. At New York begins at 6.07 A.M.; middle, 6.26; ends, 6.45 A.M. Greatest magnitude about 1 digit. Visible as a partial eclipse only in portions of the United States.

#### THE NEW STANDARD TIME.

In 1884, by general agreement and partial legislation, four standard meridians were adopted within the United States, by which railway trains are run and local time regulated. These meridians are 15 degrees, or 900 miles, apart, there being a difference of just one hour in time from one meridian to another, as there are 360° difference of just one hour in time from one meridian to another, as there are 360° in the earth's circumference, which divided by 24 hours gives 15 degrees to an hour. The Eastern meridian, 75° W. from Greenwich, passes 4 minutes west of New York City. The Central meridian, 95° W. longitude, passes (nearly) through New Orleans and St. Louis, and Chicago lies about 10½ minutes east of it. The Mountain standard meridian, 105° W. long., passes near Pike's Peak. Rocky Mountains. The Pacific meridian, 120° W. long., is near the coast, San Francisco being 9½ m. west of it. The figures in these calendar-pages will be correct for places on the standard meridians; for places east of any meridian, and within 7½ degrees of it, one minute of time for each quarter of a degree of longitude (= 15 miles nearly), or 4 minutes for each degree, must be subtracted from the almanac figures. For a place west of any meridian, and within 7½ degrees of it, add one minute for each quarter of a degree. In computing standard time of rising or setting of sun or moon for any place, select the city or State in the calendar that is nearest in latitude to the place wanted. Any United States map gives the distances in longitude of most places from the several standard meridians, sufficiently near to make practical application of the rule.

#### MORNING STARS.

VENUS from February 18 to December 2. MARS from January 1 to March 6. JUPITER from Jan. 1 to March 21; October 10 to December 81. SATURN from July 8 to December 81.

MERCURY from January 1 to February 24; from April 8 to June 11; from August 16 to September 27; and from December 3 to 31.

#### EVENING STARS.

VENUS from January 1 to February 18; from December 2 to 31. Mars from March 6 to December 31. JUPITER from March 21 to October 10. JUPITER From January 1 to July 8.

MERCURY from February 24 to April 8;
from June 11 to August 16; and from September 27 to December 8.

#### PERPETUAL CALENDAR.

For finding the day of the week on which any day of any month falls, (or the day of the month of any given day of the week) in any year before or after Christ, Old Style or New.

Example 1.—To find the day of the week for July 4th, 1881. Opposite Century 19, New Style, and over year 81, is Saturday. Under July, Saturday falls in the vertical line under 2, and the second day to the right following, under 4, is Monday, July 4th.

Example 2.—To find the day of the week on which Columbus discovered America, October 12th, 1492, Old Style. Opposite Century 15, Old Style, and over 92 in black letter (it being leap year.) is Monday. Therefore, October 8th was Monday; and the line of week-days in which Monday falls under October (which is the sixth.) with the days of the month above, constitute the entire Calendar for October, 1492, Old Style, and the

12th, as seen, falls on Friday.

EXAMPLE 3.—To find the 1st Tuesday after the 1st Monday in November, (Election Day,) 1852. Find 82 in "Years of the Century;" follow up the column to the day on a line with the figure 19 of the "Centuries, New Style:" this will be found to be Sunday. Under November, Sunday is found in the vertical line under 5, of the calendar above, Monday to the right of it under 6, and Tuesday under 7. So the Tuesday after the first

Monday, is the 7th.

#### THE TIME OF HIGH WATER

ex the places following may be found approximately for each day by adding to or subtracting from the time of high water at New York the hours and minutes annexed.

[Corrected at the office of the United States Coast and Geodetical Survey.]

	1		1)		

EXAMPLE.—To ascertain at what hour it will be high tide at Baltimore on the 1st of August, find the time of high water at New York under August 1st, which is 4.24 A.M., then add 10 hours 52 minutes, as found in the table of Tide Constants under Baltimore, and we have 3.16 P.M. as the hour of high water at Bal-

Stants under Satumore, and we have 3.10 F.m. as the nour of high water at Dar-timore August 1st, 1890.

Norm.—The hours of high water in the calendar pages are the morning hours —from midnight to noon—throughout the year, as computed for the U. S. Coast Survey. To find the time of next high water, or the afternoon tide—from noon to midnight—add 12 h. 25 m. in each day. The result will be the proximate hour of evening tide. For low water, add 6 h. 12 m., approximately, to the time of high water.

#### Explanation of the Calendar.

Explanation of the Calendar.

The two natural divisions of time are the day, of 24 hours, representing one revolution of the earth on its axis, and the year, 365 days, approximately representing one revolution of the earth around the sun. The month represents (nearly) the period of the moon's revolution round the earth (about 29% days), while the week is approximately one-fourth of this.

By the Julian Calendar, established by Julius Cæsar, 46 B.C., the months were reconstructed; and the Roman year was regulated entirely by the sun, the lunar year being abolished. Thirty-one days were given to the 1st, 34. 5th, 7th, 8th, 10th, and 12th months, and 30 days each to the rest, except February, which on every fourth year received an intercalary day, made by the sexto Calendae Martius, whence "leap-year" came to be called Bissextile. As the Julian year had 385½ days, its length exceeded the true solar year by 11m, 14 sec., so that the equinox in the course of centuries fell back several days. To correct this error, Pope Gregory XIII, in 1883 reformed the calendar by suppressing ten days, restoring the equinox to March 21. The Gregorian Calendar also made every year which is divisible by four without a remainder a leap year, except the centesimal years, which are only leap years when the first two figures are divisible by four: thus 1600 was a leap year sure the whole of the second of the mean year is 365 d. 5th 49m. 12 sec., exceeding the true solar year nearly 26 sec., which error amounts only to 1 day in 3.325 years.

The Gregorian Calendar was adopted by Germany in 1700, and by English law in 1752, when the Julian Calendar, or old style, gave place to the new style, by dropping eleven days from the month of September, 1752.

The frestival of Easter, commemorating the resurrection of Christ, used to be observed on the 14th day of the moon, i.e., near the full moon—the same as the Jewish Passover. But the Council of Nice, a.p. 325, ordered Easter to be celebrated on the Sunday next succeeding the full moon—the same

and fast days movable holidays.

JANUARY is so named from the Roman Janus, who was the porter of heaven, having the surname of Patulcus, the opener. He presided over the beginning or opening of everything, hence the first month of the year was called after him, when the Roman year was altered by Numa Pompilius (in the 7th century s.c.), from ten months beginning in March, to twelve months by adding January and February. In his original character Janus was the god of the sun, and worshipped as such by the Etruscans and the Romans. The temple of Janus (which was really a covered passage or gate at Rome) was left open in war as a symbol that the god had gone out to assist the Roman arms, while it was continually shut in time of peace.

On New Year's Day, which was the festival of the god Janus, the Romans gave presents to one another. Thus ancient was the origin of the modern custom of New Year's presents and first of January festivities.

FEBRUARY, according to some, derives its name from the Latin februare, signifying to expiate or purify, as the Romans had a custom of general lustrations and purifications in the latter part of that month. More generally, February is traced to the Roman divinity Februae, afterward identified with the god Pluto, of the lower world. Still another origin is found in the goddess Februa, supposed to be the same as Juno; and Dr. Foster says, "The evident relation between the Februata Juno and the Purificata Virg. Maria is one of the most striking instances of the connection between Pagan and Christian rites and festivities as to the period of their occurrence."

In every fourth year, February has 39 days, instead of 28, and the years (thus having 366 days, instead of 365, and styled Leap-years) are those which are divisible by 4 without a remainder—as 1834, 1838, 1892, 1896, 1904, etc. The exceptions are the centenary years which are not multiples of 400, as it was found in the Gregorian reform of the calendar that the Julian intercalation involved an error amounting to 8 days in every 400 years. Thus, while 1600 and 2000 are leap-years, the three intervening centenary years are common years of 365 days.

The month of March was named from Mars (Lat. Martius), the Roman god of war. This divinity was known as Father Mars, and next to Jupiter he enjoyed the highest honors at Rome, of which city Jupiter, Mars, and Quirinus were the three tutelary divinities. March was the first month in the early Roman calendar, and the legal year began with March 25 even in England, until the change from Old Style to New Style in 1752. (See explanation of the calendar, p. 5.) The custom of reckoning the year according to the Old Style is still retained in Russia, and even the financial year of Great Britain is reckoned from the 31st of March. In historical works, dates are frequently written thus: Feb.  $\frac{11}{12}$ , 1782; the upper figures representing Old Style reckoning, and the lower New Style.

We also see dates between Jan. 1 and March 25 expressed thus: Jan. 30, 1648; meaning that the year was legally 1648 (O. S.), but by modern reckoning 1649 (N. S.).

APRIL (Lat. Aprilis), derived perhaps from Aperire, to open, because spring and the buds generally open in this month. Another derivation has been found in the dedication of this month by the Romans to Venus, goddess of buds and beauty, whose name in Greek was Aphrodite, whence Aphrilis or Aprilis. This is more fanciful than the first-named derivation, but the word-mongers are never daunted by difficulty, any more than by distance, in their etymologies.

In the French revolutionary calendar, April included most of their new season of Germinal, and the beginning of Floreal.

On the ancient monuments, Aprilis appears as a dancing youth with a rattle in his hand, thus symbolizing the gay and jocund spirit of spring.

All-Fools' Day (April 1) is traced through every country of Europe to the Hindoos, and even farther back—to the mistake of Noah in sending the dove out of the ark before the water had abated, on the Hebrew first day of the month.

MAY (Lat. Maius) was consecrated to Apollo among the Romans, and is probably derived from Maia, a feminine divinity worshipped at Rome, to whom sacrifices were offered on the first of May. Some philologists, however, hold that Maius is a contraction of Magius, derived from the Sanskrit root mag or mah, to grow.

The custom of observing May-day, or the first of May, with floral and festive ceremonies, is older than the Middle Ages, and is probably the lineal descendant of the Roman Floralia, or festivals in honor of Flora, celebrated from April 28 to May 2.

In England the custom of going out a-Maying is mentioned in Chaucer and Shakespeare. Before sunrise young people went to the groves to gather flowers and branches of foliage to adorn the village May-pole, around which the dancing was kept up. A queen of the May, the most beautiful girl in the village, was elected for crowning.

June, the month of roses, has been commonly traced to Juno, worshipped at Rome as the queen of heaven. The connection is found in the fact that the month of June (said to have been called originally *Junonius*) was considered the most favorable period for marrying; and Juno was the great protector of the feminine sex, and believed especially to preside over marriage. Another origin is found by some in the Latin *Juniores*, the young men, to whom Romulus is said to have assigned it; and still another in *jungo*, to join (as in marriage).

The Anglo-Saxons called June "midsummer month,"

In the northern United States June is the most delightful month of the year, when the flowers put on their richest bloom, and the birds warble their most musical songs, while the earth, the air, and the water teem with vigorous life, and the hours of the day far outnumber those of the night.

JULY.—This month derives its name from Julius Cæsar, who was born on the 12th of the month, originally called Quintilis, it having been the fifth month in the original Latin year, which began with March. The change of name was proposed by Mark Antony, and easily carried in the days of the great Julius.

This is the month of "dog-days," usually reckoned as beginning on the 3d of July and ending about the 11th of August. These days were so called from the star Sirius, or the dog-star, in the constellation of *Canis Major*, to which the extreme heat of midsummer was superstitiously attributed. During these oppressively hot days it was also supposed that dogs are more likely to run mad than at other seasons,

August, like July, owes its name to the Roman Cæsars, the Emperor Augustus having followed in the footsteps of his illustrious predecessor by appropriating a month to himself. Formerly called Sextilis, or the sixth month, when Julius Cæsar changed the calendar it still continued Sextilis and had thirty days, while February had twentynine, and in leap-year thirty days. To gratify the vanity of Augustus, one day was taken by the obsequious Senate from February and added to August, so as to make his month equal in extent and dignity to July.

August is associated, at least in this country, with intense heat and welcome vacations; schools and colleges shut up, the cities pour themselves into the country, and seaside and mountain resorts are throughd.

To find the time of high tide at fifty places in the United States, see page 5.

SEPTEMBER is so called from the Latin Septem, seven, because it was the 7th month of the Roman year, which began with March, until the change of the calendar under the second King of Rome. Though September became then the 9th month, and October, November, and December the 10th, 11th, and 12th, respectively, instead of the 8th, 9th, and 10th, the ancient designations are still retained, in spite of their total inaccuracy—an instance of conservatism enduring through ages, and still perpetuated.

September is the month of harvest through large areas of the globe, and in Switzerland it is still called *Herbstmonat* (harvest month).

Harvest moon is the full moon nearest the autumnal equinox (Sept. 21), so called because it enables farmers to prolong the day's work during the autumnal harvest. In England and northern Europe the harvest moon rises near sunset several evenings successively; but this phenomenon is less marked in the United States because of our lower latitude. The recurrence of what was called an equinoctial storm at or about the time the sun crosses the equator has ceased to be (if in fact it ever was) a thing to be depended on.

OCTOBER (Lat. octc. eight) was the eighth month of the Roman calendar, before its reformation. This has given rise to the following quatrain:

"October has its name from octo, eight;
Though 'tis the truth, perhaps 'tis well to state,
Such sixes and such sevens the months were knocked to
That ten became translated into octo."

The splendor of October in the country, when the air is crisp and full of electric energy, and the green forests change to the gorgeous and many-colored hues of autumn, has been celebrated by many writers.

NOVEMBER (Lat. novem, nine) is now the eleventh month, instead of the ninth, as before the change of the Roman calendar.

Though frequently cold and blustering, November is redeemed almost every year, throughout a large region of the United States, by the delightful weather known as Indian Summer, when for days or weeks the sun pours its rays mildly through a haze, and the soft and genial air invites us abroad to enjoy, as it were, a second edition of summer before winter closes in.

November is also notable in the northern parts of the United States for its time-honored festival of Thanksgiving, which originated with the Pilgrim Fathers at Plymouth. Formerly celebrated on different Thursdays, as fixed by proclamation by the various State governors, Thanksgiving has now come to be generally observed on the last Thursday in November, as announced by Presidential proclamation.

To find the time of high tide at fifty places in the United States, see page 5.

DECEMBER (Lat. decem, ten), the tenth month of the early Romans, has become the twelfth, rounding out the year.

This is the month of the longest nights and the shortest days, as the winter solstice falls on the 21st of December.

When the French revolutionized the calendar in 1792, and gave the months new and significant names, December was cut in two, the first part of it becoming *Frimaire* (frosty) and the last *Nivose* (snowy).

As the month of the Christmas holidays, which continue, where fully celebrated, from December 24 to January 2, or even longer, December's cold and gloom are enlivened with the joyousness, generosity, and charity of the greatest festival in the calendar.

#### ALPHABET OF SOME NOTABLE EVENTS AND DISCOVERIES.

Alaska ceded by Russia to the United States,

1867, June 20.

Algerine war declared by United States. 1815, March 3.

\* Included West Virginia in 1850 and 1860.

"Included west Virginia in 1850 and 1860.

Note.—The Superintendent of the Census accompanies the tables from which the above summaries are condensed, by remarks expressive of the distrust which should attach to the results. The estimates are necessarily based on very imperfect data; their value is largely dependent upon the judgment of the multitude of officers making the returns; and such aggregate estimates of wealth spread over a wide expanse of territory furnish a task difficult, if not impossible. The returns for 1850 are regarded as far too low. The increase of values from 1860 to 1870 is much enhanced by the paper-money infiation, which swelled the figures in the census year 1870 to an average of perhaps 25 per cent. Again, in the valuations of 1850 and 1860 slaves were included in the 15 Southern States and the District of Columbia, while in 1870 no such item of property was included; and there was also a great depreciation in the value of real estate throughout the South in the decade 1860-1870, which included the civil-war period, 1861-65.

Table Exhibiting, by States, the Aggregate of Troops furnished to the Union Army, 1861-65, with Bounties Paid by States.

Compiled and Condensed from the Official Reports of the War Department.

<sup>1)</sup> This gives colored troops enlisted in the States in rebellion; besides this, there were 92.576 colored troops, included (with the white soldiers) in the quotas of the several States; the 3d column gives the aggregate of colored, but many enlisted South were credited to Northern States.

2) This is the aggregate of troops furnished for all periods of service—from 3 months to 3 years time. Reduced to a uniform three years standard, the whole number of troops enlisted amounted to 2.30,272.

3) Virginia and West Virginia populations by census of 1860, as divided by counties in 1863.

4) This table is given from the Report of the Provost Marshall General in 1866, with the remark that much larger disbursements in beusities were made in some States, the aggregate not ascertainable.

Number of Troops from each of the old Thirteen States, enlisted during the Revolutionary War, 1775-1783, including Continental Soldiers and Militia.

Compiled and condensed from the Report of the Secretary of War, May 10, 1790. American State Papers, Military Affairs, vol. 1, p. 14 to 19.

Mora.—As the fares by rallway are constantly varying, and time-solies vary widely by different trains, the mail time and y "" ager fares above given are to be taken as approximately correct.

From the Financial Review, 1877, with Additions.

FOR the purpose of showing the total amount of exports and imports of merchandise and the total of specie in each year since 1856, the table below has been compiled. In the columns headed "Excess" are given the differences between exports and imports each year, showing at a glance the "trade balance" of the country.

Gold Value of Imports and Exports of Merchandise and Specie into and from the United States in each Fiscal Year since 1856.

YEAR.		MERCHAND	ISE.		SPECIE.

#### IMMIGRATION INTO THE UNITED STATES, 1820-1884.

PRIOR to the year 1820, no statistics of immigration were officially kept. By the Act of PRIOR to the year 1820, no statistics of immigration were officially kept. By the Act of Congress, of March 2nd, 1819, Collectors of Customs were required to keep a record and make a quarterly return to the Treasury, of all passengers arriving in their respective districts from foreign ports; and these reports, published from time to time by the Treasury Department, constitute the sources of information as to the progress of immigration. The total number of foreign-born passengers arriving at the ports of the United States, from 1820 to 1829 inclusive, is given below. Prior to 1836, the figures show the whole number of aliens arriving, but from 1836 to 1885 inclusive, the number of immigration of the control of the c

immigrants only, i. e., of foreign passengers settling in the United States.

It has been estimated that the whole number of aliens coming to the United States from 1789 to 1820, was about 250,000.

Tits believed that the table given above will fairly represent the question of profit and loss in the cultiva tion of tobacco in 1879 in the various states of the Union. It will be observed that Tennessee stands lowest in the column which indicates profit. This is due to the peculiar condition of the tobacco market is the time the census was taken. Stocks of tobacco had accumulated, until prices coincide very nearly with the cost of production. All other states growing tobacco for exportation produced also some types peculiarly suited to the requirements of the domestic manufacturer, which brought good prices and elevated the general average of prices for such states. The profitsin growing tobacco in Kentucky came from the production of the White Burley and yellow wrapper; in Illinois, from the production of the seed-leaf; in Missourt, from the production of sweet fillers and White Burley; and in Virginia from the production of yellow wrappers, bright "smokers," and sun, air-, and dise cured fillers. In consequence of the low scale of prices for shipping-leaf, and the margin for profit being reduced to such a low point, Tennessee, Missourf, Illinois, Indiana, Maryland, and other states growing tobacco mainly for exportation, show relatively a diminished production. On the other hand, all those states which have grown types suitable for domestic consumption, have generally ascended rapidly in the rank of production. Penneylvania, which wast weight in rank in 1870, takes the third rank in 1880. Ohio passes from the fifth to the fourth, while Maryland and Tennessee descend from the fifth and third rank respectively to the seventh to the ninth rank.

Total ...... 631,061 469,816,203 36,624,357

Maryland and Tennessee descend from the number of the seventh to the nint rank.

Profits in the culture of tobacco have been in direct proportion, first to its suitableness to connectic consemption; and, secondly, to the amount of fertilization practiced by the growers in its cultivation.

Ninety-four per cent. of all the product grown for market in 1879, north of the parallel of 39° 44′. was classed as seed-leaf tobacco; and eighty-four per cent. of the whole product of that class was grown north of the same line. The amount of seed-tenfgrown in the United States resched nearly twenty per count. of of the same line.

### PRODUCTION OF PIG-IRON IN THE EIGHT YEARS 1876 TO 1884. BY STATES.

#### PRODUCTION AND CONSUMPTION OF BEER.

The following table, (from the British Trade Journal, except as to the United States,) gives the quantity of beer, (including ale,) brewed in various countries in 1880, with the consumption per capita of population. As no account is taken of the quantity imported into or exported from each country in these figures, it is to be presumed that this element would modify the result as to certain countries.

#### Railway Accidents in the United States.

The following statistics of accidents on railways for 10 years past (compiled by the Railroad Gazette, N. Y.) are a record of accidents to trains only—not of all railway accidents. Whe larger number killed or injured on railways are those crossing or walking on the tracks, or falling from trains in motion, and without any accident to trains themselves. But these latter are not reported.

Note.—No comprehensive figures of the business of the railways of the United States are attainable prior to the above. And even these tables are the fruit of private enterprise, in compiling from the official annual reports of each road the results of the traffic as shown above, and including for the year 1834 the operations of companies running 115,672 miles of railway. No department of the Federal Government has been invested with authority to require returns of railway operations, except from the transcontinental lines chartered or endowed by Congress, but there are State officers charged with such duties in a majority of the States.

#### SUMMARY STATISTICS OF THE UNITED STATES RAILWAYS IN 1884—AVERAGES.

For each 100 miles of railroad operated in the United States there are 22.84 locomotives; 14.37 passenger cars; 4.72 baggage, mail, and express cars; and 638 freight cars of all kinds.

The capital stock aggregates to each mile of completed road, \$38,064. Bonded debt to each mile of completed road, \$29,317.

Total cost of construction and equipment each mile, \$55,329.

Gross earnings per mile of road in operation, \$6,663.

Gross earnings per mile of road in operation, \$5,663.

Net earnings per mile of road in operation, \$2,318.

Interest paid on bonds per mile of completed road, \$1,336.66.

Dividends paid on stock per mile of completed road, \$744.72.

Ratio of interest paid to total funded debt, 4.56 per cent.

Ratio of dividends to aggregate capital stock, 2.48 per cent.

Average fare per mile, 2.35 cents.

Average freight-charge per ton, 1.1 cents per mile.

Total number of passengers transported in 1884, 334,814,529.

Total treight transported on all railroads in 1884, 390,074,749 tons.

### STATE RAILWAY COMMISSIONS.

Railway Commissions invested with greater or less powers have been created by law in twenty-six States of the Union up to 1885, leaving twelve States only unprovided with such officers.

The States having Railroad Commissioners are as follows, with the number constituting the Commission in each:

Alabama, 3; Arkansas, 3; California, 3; Colorado, 1; Connecticut, 3; Georgia, 3; Illinois, 3; Iowa, 3; Kansas, 3; Kentucky, 3; Maine, 3; Massachusetts, 3; Michigan, 1; Minnesota, 3; Missisappi, 3; Nebraska, 3; New Hampshire, 3; New York, 3; Ohio, 1; Rhode Island, 1; South Carolina, 3; Texas, 1; Vermont, 1; Virginia, 1; and Wisconsin, 1

In some of these States the commissioners are merely examining and reporting officers; in others the commissioners are merely examining and reporting officers; in others the commissioners have purely advisory powers, the legislatures retaining the sole power of regulation of railways by statute; in others still, the commissions are invested with power to fix rates of freight and fares. The States in which railway commissioners have power to fix rates are nine in number, viz., California, Georgia, Illinois, Kansas, Maine, Mississippi, Missouri, New Hampshire, and South Carolina.

and South Carolina.

The general supervision of the railways, with power to enforce existing laws by due process, and the requirement of formal reports to the legislature, constitute the functions more generally vested in the railway commissions of the States. In several States (as in Arkansas and Nebraska) three of the State officers are made railroad commissioners ex officio. In Tennessee alone the railway companies have successfully resisted in the U. S. Courts revision of their tariffs of charges by the railway commissioners, and the commission itself (established in 1883) has been abolished by the legislature. the legislature.

The greatly increased mileage since 1880 is principally due to the fact that in 1881 the Western Union Telegraph Company absorbed by purchase all the lines of the American Union and the Atlantic and Pacific Telegraph Company, the former having previously in operation over 12,000 miles of line, and the latter 8,706 miles. Capital stock of the Western Union, \$80,000,000.

The Western Union has exclusive contracts with several International Cable Com-

panies, operating 8 Atlantic Cables, and guarantees 5 per cent, annual dividends on the stock of the American Cable Company; amount, \$14,000,000.

Besidesithe above, there are many new lines of Telegraph, which have complied with the United States Telegraph Act of 1866, and are operating wires with or without

with the United States Telegraph Act of 1866, and are operating wires with or without connection with Railway Companies.

The Muyual Union Telegraph Company, of the United States, established in 1881, has about 8,000 miles of line, 60,000 miles of wire, 1,200 offices, and is extending its lines North and South, operating already from Boston to Chicago, St. Louis, Washington, etc. Capital Stock, \$10,000,000. This line is now leased and operated by the Western Union Telegraph Company.

The Baltinore and Ohio Railroad Telegraph has lines coextensive with its railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides many newly extended wires south and west, railway system and branches, besides and newly system and south system and south system and south system and south system and south system and south system and south system and south system and south system and south system and south system and south system and south system and south system and sou

August, 1884. Soid in foreclosure, July 51, 1885, and how operated by the United Lines of Telegraph.

The American Rapid Telegraph Company, New York to Boston, Philadelphia, Baltimore, Washington, Buffalo, etc., with capital stock of \$4,000,000. Has been leased by the Western Union Company.

The Postal Telegraph and Cable Company, of New York, organized June 21, 1881, has about 1,500 miles of line, and 4,500 miles of wire in operation, from New York to Chicago, etc., and owns what are claimed to be very valuable patents in improved wires and telegraphy. Authorized capital stock, \$21,000,000, of which about \$7,500,000 bod been issued.

000 has been issued.

The aggregate mileage of Telegraph Lines in the United States open for public business, exceeds 164,000 miles, besides Railway, Government, private and telephonic

lines, length not ascertainable.

THE AMERICAN BELL TELEPHONE COMPANY (Boston) had in use by its licensees, January 1, 1885, about 310,000 Telephones, and 772 Telephone Exchanges in various cities of the United States. The aggregate length of Telephone wires operated by these was 101,734 miles. Capital stock, \$9,602,100. Number of Telephones, 307,010. Gross earnings year ending March 1, 1884, \$2,295,594; net earnings, \$1,475,431. Dividends paid in 1885, 14 per cent.

The aggregate number of Telephones in use in all the cities of the country, includ-

ing those of competing companies, is much greater than the above.

The extent in mileage of telegraph wires put up for Telephone use in the United States, is estimated at 120,000 miles. THE BELL TELEPHONE COMPANY of Canada has in operation over 5,000 telephones in about 100 cities or towns of the Dominion. Capital, \$1,000,000.

There are 17 different school ages in the United States: the longest extends from 4 to 21, the shortest from 3 to 14, and the average length of the school period is 14% years.
 Several States do not report this item separately.

European population.
Exclusive of British subjects.

- Including infant schools.

  Estimated number of children between the ages of 7 and 13.
- 7. Day schools, including infant schools.
  8. Of these 3,710,883 pupils, 1,208,016 were between the ages of 3 and 7, 2,383,578 between 7 and 13, and 168,984 were above 13 years of age.
  9. 29,716 certificated, 6,616 assistant, and 33,195 pupil teachers.
- Estimated number of children between the ages of 6 and 14. The school age is fixed by the local school authorities.

Note.—In a few of the Territories, a marked change is observable in the number of Illiterates as compared with the number reported in 1870. With the exception of New Mexico, where the proportion of Illiterates has been considerably decreased by the establishment of common schools, this result is due to changes: `the population, and chiefly to the withdrawal of Chinese laborers.

### PUBLIC-SCHOOL STATISTICS OF THE UNITED STATES IN 1883-84.

From Report of the Commissioner of Education, 1883-84.

### The Climates of the United States.

We give below a table prepared by selection from the voluminous records of the recent work on American temperature, showing the mean annual temperature of the atmosphere at a given point in each of the forty-nine States and Territories of the Union. The place is selected as either the capital or some leading city or town where observations have been most continuously kept:

State or Territory.	Place of observation.	Mean annual temper- ature.	State or Territory.	Place of observation.	Mean annual temper ature.
Alabama	Mobile	66°	Mississippi	Jackson	64°
Alaska	Sitka	460	Missouri	St. Louis	550
Arizona	Tucson			Helena	43
Arkansas	Little Rock	68°	Nebraska	Omaha	49
California	San Francisco	55°	Nevada	C'p Winfi'ld Scott	509

<sup>1.</sup> Conscripts.

NOTE.—These statistics are not in most cases based upon a census of illiterary, which few nations have provided for in systematic form. They are to be regarded rather as an attempt to approximate the proportions ignorant of the arts of reading and writing, from such data as exist concerning soldiers, the signing of mar slage registers, etc., than as exact statistics of illiteracy

<sup>2.</sup> Criminals.

### Number of Electoral Votes to which each State has been entitled at each Presidential Election, 1789-1884.

#### Business of the General Land-Office for the Fiscal Years 1884, '85.

The disposals of the Public Lands during the last two fiscal years ending June  $\mathfrak{A}$ , 1884 and 1885, were as follows:

	1884.	1885.
Cash entries	6,317,847.34	8,912,450.49
Homestead entries	7,831,509.88	7.415.885.53
Timber-culture entries	4,084,463,87	4.755,005.57
Agricultural College scrip locations	320.00	961.83
Locations with military bounty land-warrants	26,586.04	26.833.18
Total scrip locations	9,639.81	9,181.10
Donation entries	4,949.85	2,200.76
State selections (school swamp, and internal improvimt)	156,612.08	299,239.6 <sup>8</sup>
Lands selected under railroad grants	8,343,154.43	8,558.914.10
Indian lands, sales of	697,128.97	881.850 21
Entries under Settler's Relief Act, etc	160.00	1,286 43
Wagon-road selections.	27,710,21	128,066.91
Private land-claim selections	17.693.08	7,944 37
Indian homestead entries	13,395.44	8,637.77
Total number of acres disposed of for the fiscal year.	27,581,170,00	20,995,515.59
Moneys received during the fiscal year		\$8,628,420.18

#### OUR PUBLIC LAND SYSTEM.

THE public lands of the United States which are still undisposed of and open to settlement lie in inleteen States and eight Territories. In each case, except Ohio, Indiana, Illinois, the Indian Territory and Alaska, land offices are established, in charge of an officer known as Register of the Land Office, where the records of all surveyed lands are kept, and all applications concerning lands in each district are filed and inquiries answered. The public lands are divided into two great classes. The one class have a dollar and a quarter an acre designated as the minimum price and the other two dollars and a half an acre, the latter being the alternate sections, reserved by the United States in land grants to railroads, etc. Titles to these lands may be acquired by private entry or location under the homestead, preëmption and timber-culture laws; or, as to some classes, by purchase for cash, in the case of lands which may be purchased at private sale, or such as have not been reserved under any law. Such tracts are sold on application to the Land Register, who issues a certificate of purchase, the receiver giving a receipt for the money paid, subject to the issue of a patent, or complete title, if the proceedings are found regular, by the Commissioner of the General Land Office, at Washington.

Entries under land warrants (given mostly for military services under acts of Congress), have fallen off very largely by the absorption of such warrants, there having been no military bounty land warrants provided for on account of services in the late

war.

Entries under the preemption law are restricted to heads of families, or citizens over

twenty-one, who may settle upon any quarter section (or 160 acres), and have the right of prior claim to purchase on complying with certain regulations.

The homestead laws give the right to one hundred and sixty acres of a dollar-and-squarter lands, or to eighty acres of two-dollar-and-a-half lands, to any citizen or applicant for citizenship over twenty-one who will actully settle upon and cultivate the land. This privilege extends only to the surveyed lands, and the title is perfected by the issue of a patent after five years of actual settlement. The only charges in the case of homestead entries are fees and commissions, varying from a minimum of \$7 to a maximum

of \$34 for the whole tract entered, according to the size, value or place of record.

Another large class of free entries of public lands is that provided for under the timber-culture acts of 1873-78. The purpose of these laws is to provide the growth of forest trees on the public lands. They give the right to any settler who has cultivated for two years as much as five acres in trees to an eighty-acre homestead, or, if ten acres, to a homestead of one hundred and sixty acres, and a free patent for his land is given him at the end of three years instead of five. The limitation of the homestead laws to him at the end of three years instead of five. The limitation of the homestead laws to one hundred and sixty acres for each settler is extended in the case of timber-culture so as to grant as many quarter sections of one hundred and sixty acres each as have been improved by the culture for ten years of forty acres of timber thereon, but the quarter sections must not lie immediately contiguous. timber-culture entries vary from \$13 to \$18 for the tract. The fees and commissions in

The following is the complete list of United States Land Offices:

Alabama: Huntsville, Montgomery.

Arkansas: Little Rock, Camden, Harrison, Dardanelle.

Arizona Territory: Prescott, Tucson.

California: San Francisco, Marysville, Humboldt, Stockton, Visalia, Sacramento, Los Angeles, Shasta, Susanville, Bodie.

Colorado: Denver City, Leadville, Central City, Pueblo, Del Norte, Lake City, Duran-

go, Gunnison, Glenwood Springs. Dakota Territory: Mitchell, Watertown, Fargo, Yankton, Bismarck, Deadwood, Grand Forks, Aberdeen, Huron, Devil's Lake.

Florida: Gainesville.

Idaho Territory: Boisé City, Lewiston, Oxford, Hailey, Cour d'Alène.

Idaho Territory: Boise City, Lewiston, Ozlota, Landy, Concordia, Larned, Wa-Keeny, Oberlin, Garden City.
Louisiana: New Orleans, Natchitoches.
Michigan: Detroit, East Saginaw, Reed City, Marquette.
Minnesota: Taylor's Falls, St. Cloud, Duluth, Fergus Falls, Worthington, Crookston, Benson, Tracy, Redwood Falls.
Mississippi: Jackson.
Missouri: Boouville, Ironton, Springfield.
Montana Territory: Helena, Bozeman, Miles City.
Nebraska: Beatrice, Lincoln, Niobrara, Grand Island, North Platte, Bloomington, Neligh, Valentine, McCook.
Nevada: Carson City, Eureka.
New Mexico Territory: Santa Fé, Las Cruces.

New Mexico Territory: Santa Fé, Las Cruces.
New Mexico Territory: Santa Fé, Las Cruces.
Oregon: Oregon City, Roseburg, Le Grand, Lake View, The Dalles.
Utan Territory: Salt Lake City.
Washington Territory: Olympia, Vancouver, Walla Walla, Spokane Falls, Yakima.
Wisconsin: Menasha, Falls of St. Croix, Wausau, La Crosse, Bayfield, Eau Claire. Wyoming Territory: Cheyenne, Evanston.

#### 54 UNITED STATES PUBLIC LANDS—WHERE THEY LIE.

Statement showing the Number of Acres of Public Lands Surveyed in the Land States and Territories up to June 30, 1885; also the Total Area of the Public Domain Remaining Unsurveyed.

[From the Annual Report of the Commissioner of the General Land Office for 1885.]

ı	Area of Public States and Te	Lands in rritories.	Numb	er of Acres Surve		Lands ·	Total Area of Public and Indian Lands
LAND STATES AND TERRI- TORIES.	In Acres.	In Square Miles.	Total up to June 30, 1884.	Prior to June 30, 1884, not here- tofore reported.	Within the Fiscal Year ending June 30, 1885.	Total up to June 30, 1885.	Remaining Unsurveyed, inclusive of the area of Private Land Claims Surveyed up to June 30, 1885.

Total	1,817.063,588	2,839,162	938.940.125	20,321,086	9,983,981	969,245,192	*847,818,396

<sup>\*</sup> This estimate is of a very general nature, and affords no index to the disposable volume of land remaining, nor to the amount available for agricultural purposes. It includes Indian and other public reservations, unsurveyed private land claims, the sixteenth and thirty-sixth sections reserved for common schools, unsurveyed lands embraced in railroad, swamp land, and other grants, the great mountain areas, the areas of unsurveyed rivers and lakes, and large areas wholly unproductive and unavailable for ordinary purposes. The volume of land in the unsurveyed portion of the public domain suitable for homes and subject to settlement under the laws of the United States is of comparatively small proportions.

#### Statistics of Homestead Settlement on the Public Lands.

Statement of Number of Acres entered annually, under the Homestead and Timber Culture Acts, from July 1, 1870, to June 30, 1884, inclusive.

Years ending June 80.	1870.	1871.	1872.	1873.	1874.
Homestead Entries	Acres. 3,698,910	Acres. 4,600,326	Acres. 4,671,332	Acres. 3,793,613	Acres. 3,516,862
Years ending June 30.	1875.	1876.	1877.	1878.	1879.
Homestead Entries Timber-culture	2,533,058 464,870	2,875,910 607,985	2,178,008 520,672	4,418,345 1,870,434	5,260,111 2,766,574
Total	2,820,928	3,483,895	2,698,770	6,288,779	8,026,685
Years ending June 30.	1880.	1881.	1882.	1883.	1884.
Homestead Entries Timber-culture	6,045,571 2,193,184	5,028,101 1,763,799	6,348,045 2,566,686	8,171,914 3,110,980	7,831,510 4,084,464
Total	8,238,755	6,791,900	8,914,781	11,282,844	11,915,974

In 1885, Homestead Entries, 7,415,886 acres; Timber-culture Entries, 4,755,006. Total, 12,170,892 acres.

#### UNITED STATES PATENT-OFFICE BUSINESS.

#### THE COPYRIGHT LAW OF THE UNITED STATES.

EVERY applicant for a copyright must state distinctly the name and residence of the claimant, and whether right is claimed as author, designer, or proprietor. No affidavit or formal application is required.

A printed copy of the title of the book, map, chart, dramatic or musical composition, engraving, cut, print, or photograph, or a description of the painting, drawing, chrome, statue, statuary, or model or design for a work of the fine arts, for which copyright is desired, must be sent by mail or otherwise, prepaid, addressed, "LIBRARIAN OF CONGRESS, WASHINGTON, D. C." This must be done before publication of the book or other article.

A fee of 50 cents, for recording the title of each book or other article, must be inclosed with the title as above, and 50 cents in addition (or one dollar in all) for each certificate of copyright under seal of the Librarian of Congress, which will be transmitted by early mail.

Within ten days after publication of each book or other article, two complete copies must be sent prepaid, or under free labels, furnished by the Librarian, to perfect the copyright, with the address, "Librarian of Congress, Washington, D. C."

Without the deposit of copies above required the copyright is void, and a penalty of

\$25 is incurred.

No copyright is valid unless notice is given by inserting in every copy published, "Entered according to act of Congress, in the year —, by —, in the office of the Librarian of Congress, at Washington," or, at the option of the person entering the copyright, the

words: " Copyright, 18-, by -The law imposes a penalty of \$100 upon any person who has not obtained copyright who shall insert the notice "Entered according to act of Congress," or "Copyright," or words of the same import, in or upon any book or other article.

Each copyright secures the exclusive right of publishing the book or article copyrighted for the term of twenty-eight years. Six months before the end of that time, the author or designer, or his widow or children, may secure a renewal for the further

erm of fourteen years, making forty-two years in all. Any copyright is assignable in law by any instrument of writing, but such assignment must be recorded in the office of the Librarian of Congress within sixty days from its

date. The fee for this record and certificate is one dollar. A copy of the record (or duplicate certificate) of any copyright entry will be furnished,

under seal, at the rate of fifty cents. Copyrights cannot be granted upon Trade-marks, nor upon Labels intended to be used with any article of manufacture. If protection for such prints or labels is desired, application must be made to the Patent Office, where they are registered at a fee of \$\frac{1}{2}\$ for labels and \$25 for trade-marks.

Nors.—The anness interest energe is computed upon the amount of outstanding principal at the close of the feed year, and is exclusive of interest charge on Pacific Railway Bonds.

1. Five and six per cent. bonds issued under Acts of July 17 and August 5, 1861, March 3, 1863, July 14, 1879, and January 20, 1871, continued at three and a half per cent.

2. The Temporary Lean, per Act of July 11, 1862, is included in the 4 per cents. from 1862 to 1868 inclusive, the exception of the amount cutstanding for August 31, 1885, this being the date at which the public debt ched its highest point. This ican bere interest from 4 per cent. to 6 per cent., and was redeemable on tea re'notice after 30 days, but being constantly changing, it has been considered more equitable to include the she cameral outstanding as bearing 4 per cent. interest on an average for the year.

# NUMBER, TONNAGE, AND DISTRIBUTION OF THE SHIPPING OF THE UNITED STATES, JUNE 30, 1885.

(From the Annual Report of the Bureau of Navigation, December, 1885.)

This exhibit of the total revenues of the government (from which the column of cents is omitted for greater condensation) omits one item of receipts, under the head of "Dividends," which represents the revenue derived from the Bank of the United States, between the years 1792 and 1802, and from 1817 to 1836 inclusive. The aggregate of these dividend receipts was \$9,720,136. The items of "Interest" and "Premiums" on government loans and sales of gold coin are also omitted, as constituting no part of net ordinary receipts.

# Receipts of the United States from March 4, 1789, to June 30, 1885.— Continued.

The import values are invoice prices in gold at place of shipment, and the export values are also in specie. From 1862 to 1878, representing the period of suspension of specie payments, an additional column on the right exhibits the currency value of domestic exports, added to the specie of domestic production exported.

### SPECIE VALUE OF IMPORTS AND EXPORTS OF THE UNITED STATES, FROM SEPT. 80, 1780, TO JUNI 80, 1885—(Continued).

Note.—The rule observed in the above table, of including only specific articles, which pay as much as \$100,000 revenue into the Treasury, of course omits a great many minor articles of commerce, yielding little revenue. To print the whole in detail would occupy too great space, but the scheme followed sums up the aggregate of each great class of imported commodities, with the duties collected, and the average percentage of duties thereon.

Comparative Statement, Imports of Fiscal Years 1883 to 1885.

## Brief History of the Standard Silver Dollar.

Authorized to be coined, Act of April 2, 1792. Weight, 416 grains, standard silver; fineness, 892.4; equivalent to 371½ grains of fine silver, with 44½ grains alloy of pure copper. Weight changed, Act of January 13, 1837. to 412½ grains. and fineness changed to 900, preserving the same amount of pure silver = 371½ grains, with ½ alloy.

Coinage discontinued, Act of February 12, 1878 Total amount coined, from 1792 to 1873, \$8,045,838.

Coinage revived, two million dollars per month required to be coined, and issue made legal tender for all debts, public and private, Act of February 28, 1878.

Total amount coined, February 28, 1878, to November 1, 1885, \$213,257,594.

## LOWEST AND HIGHEST PRICES OF COMMODITIES FOR FIFTY-SIX YEARS—1825-1884.

(Compiled from the Reports of the Secretary of the Treasury for 1863 and 1873, the Commercial and Financial Chronicle, Reports of the N. Y. Chamber of Commerce, and the N. Y. Shipping List and Price Current.)

Norm.—In the American Almanac and Treasury of Facts for 1878, pp. 378-9, appeared a table of prices compiled on the basis of the average price of each article in New York, the list of January of each year. Such a table, however meetil, falls to give the data which are important in forming a judgment of the whole range of prices for each year. The following table, carefully compiled from the sources indicated, takes the prices of the twelve months in each year, selecting the highest and lowest quotation for each article. It is to be understood, where no mention of quality is made, that the price quoted is for the cheapest grade of each commodity.

## LOWEST AND HIGHEST PRICES OF COMMODITIES FOR FIFTY-SEVEN YEARS-1825-1884.

These tables of prices have been compiled upon the basis of selecting the leading articles entering into general consumption, whether as semi-luxuries or the necessaries of life. The prices quoted being those of the New York market, still wider variations would in some cases have been exhibited if other markets, near the centres of production of some leading staples, had been collated with these. The tables exhibit the violent fluctuations of the civil war period in the United States—1861-65—and the years of expansion immediately succeeding, in contrast with the general decline of the past few years, which has not yet reached, however, save in a few articles, the minimum prices which prevailed before the war,

## LOWEST AND HIGHEST PRICES OF COMMODITIES FOR FIFTY-SEVEN YEARS-1825-1883.

Compiled from the Reports of the Secretary of the Treasury for 1863 and 1873, Reports of the N. Y. Chamber of Commerce, the N. Y. Shipping List and Price-Current, and the N. Y. Produce Exchange

Norz.—In the American Almanac and Treasury of Facts for 1878, pp. 278-9, appeared a table of prices compiled on the basis of the average price of each article in New York, the 1st of January of each year. Such a table, however useful, falls to give the data which are important in forming a judgment of the whole range of prices for each year. The following table, carefully compiled from the sources indicated, takes the prices of the twelve months in each year, selecting the highest and lowest quotation for each article. It is to be understood, where no mention of quality is made, that the price quoted is for the cheapest grade of each commodity.

<sup>&</sup>lt;sup>1</sup> In these thirteen States the Governor has a house free of rent, in addition to the

salary of the office.

The Oregon Legislature, in 1882, made the term of Governor and other officers elected for 4 years terminate in January, thus giving 4 years and 4 months (nearly) to officers chosen in 1882

to officers chosen in 1882.

The Capital of West Virginia was removed from Wheeling to Charleston, in May,

<sup>&</sup>lt;sup>4</sup> The Governors of the Territories are appointed by the President and Senate of the United States, for the term of four years, unless sooner removed by the President.

The following statements of the Finances of the Thirty-eight States in the Union have been derived from the Officers of the States themselves.

 All of Iowa's debt is invested in the School Fund, the interest only being payable.
 Kansas holds \$607,925 of its bonds in permanent School Fund, besides \$878,984 Sinking Fund.

\*Kentucky had \$530.650 in Sinking Fund, and is practically out of debt.

\*The State of Maryland held \$3,992,851 in interest-paying securities of corporations, besides \$27,30.539 in unproductive securities.

\*Massachusetts held \$20,287,498 in Sinking Fund.

Of Minnesota's debt, \$2,849,000 is held as permanent investment by school funds, and is not a State debt.

and is not a state debt.

Mississippi's debt was due the School Fund to the amount of \$2,404,566, on which interest only is payable, leaving net debt, less cash in treasury, \$381,725.

New York held in Sinking Fund, October 1, 1882, \$2,422,982.

Pennsylvania held \$3,474,801 in Sinking Fund; also in stocks of incorporate companies, interest-paying, \$5,160,913: net debt, \$10,448,574,

¹ California holds in trust for her School and University funds, \$2.690,000 of her bonded debt, on which interest only is payable, reducing the net debt to \$354,500.
² Delaware has no State tax on property, and therefore no State valuation of taxable property. The State holds interest-paying securities of over one million, and is actually out of debt.

<sup>&</sup>lt;sup>a</sup> In these States the Governor and most State officers are elected quadrennially, and the Legislature (or the members of the Assembly) every two years.

By act of March 3, 1875, elections of Representatives in Congress are required to be held on the Tuesday next after the first Monday in November, every second year, in 1876 and following years. Subsequent special Acts enable States whose Constitutions ax a different date to elect earlier, until they amend their Constitutions.

b In Louisiana, the Legislature and State officers are elected quadrennially; members of Congress biennially.

<sup>•</sup> The Ohio election, for State Ticket, was changed in 1885 by constitutional amendment, from October to November.

Wisconsin has changed the sessions of the Legislature, and the times of election from annual to biennial.

By act of Congress, March 1, 1792, amended Jan. 23, 1845, a uniform day of election for Electors of President and Vice-President, is fixed for all the States—being the Tuesday next after the first Monday in November, every fourth year after a President has been elected.

Numbers, Term of Office, Salaries, and Time of Meeting of State and Territorial Legislatures.

<sup>&</sup>lt;sup>1</sup> In Ohio and a few other States, where the Legislative sessions are biennial, the Legislatire holds "Adjourned Sessions," practically amounting to annual meetings.

<sup>:</sup> The Rhode Island Legislature is required to meet annually the last Tuesday in May, at Newport, and an adjourned session to be holden annually at Providence.

I Unless extended by special vote.

HISTORICAL AND STATISTICAL TABLE OF THE UNITED STATES AND TERRITORIES, SHOWING THE AREA OF EACH IN SQUARE MILES AND IN ACRES; THE DATE OF URGANIZATION OF TERRITORIES; DATE OF ADMISSION OF NEW STATES INTO THE UNION, WITH THE STATUTORY REFERENCES FOR EACH.

From the Report of the Commissioner of the General Land Office, with Corrections. The areas see from the Census Report of 1880.

Total debts		27,488,001,986				

Debt of Sweden is wholly offset by the value of the State railways, built by the Government.

8 Venezuela's foreign debt which had grown to over \$54,000,000 in 1878, when interest payments were resumed, was "consolidated" into new 4 per cent. bonds in 1881.

<sup>&</sup>lt;sup>1</sup> Including merchandise, specie, and bullion.
<sup>2</sup> Including New South Wales, New Zealand, Queensland, South Australia, Tasmania, Victoria, and Western Australia.

<sup>3</sup> Foreign debt only.

<sup>4</sup> Spain being wholly unable to meet the interest on its debt, it was "converted" in 1881-2 from an aggregate of \$2,560,000,000, into new securities to the amount of \$1,290,000,000 at 4 per cent.

<sup>&</sup>lt;sup>6</sup> Switzerland makes no reports of her external commerce by money values, but only by weight of merchandise.

<sup>7</sup> The Turkish Government, by arrangement with a committee of bondholders, "scaled" its public debt in 1881, "rom \$1,284,009,425 to \$532,186,170, pledging its revenues for payment.

#### FOREIGN COUNTRIES.

Note.-For the rulers or heads of principal nations, see page 111.

## Argentine Republic.

This country has an area as great as all Central and Western Europe combined (about 1,619,500 ag miles), and a population of 1,788,(31 by census of 1889, now estimated at 3,000,000. It abounds in remarkably fertile plains, called pampas, with rich alluvial soil four or five feet thick, formed by decay of luxurious vegetation. It consists of 14 provinces: the province of Buenos Ayres is the most populous, having over half a million population, with a capital city—Buenos Ayres—of 200,000, estimated for 1878. The vast extent of Indian country it very sparsely populated. The population of Buenos Ayres and the riverine provinces is largely European, and immigration has increased enormously of late years, attracted by the fertility of the soil and the prosperity and free institutions of the Republic. By the last census there were 212,000 people of foreign birth, occupying 2,000,000 a mes of land, in the province of Buenos Ayres alone, and owning 35 million sheep, besides multitudes of horned cattle, buildings, etc., acquired in a few years by men who, on arrival, did not own a dollar. Eminently a pastoral country, with about 18 millio 1 horned cattle, and 140 million sheep, the exports are largely of wool, hides, and tall w. The premium on gold varied from 30 to 33 per cent. in 1878. The exports in 1883 "ere \$60,389,052, and the imports \$81,246,163, 12 lines of steamers run to Europe, the passage occupying 29 days. The republic has nearly 1,800 miles of railway and 8,6 00 miles of telegraph, besides an Atlantic cable communicating with London.

The revenue for 1883 was \$39,233,749, derived almost wholly from import and export duties. The expenditure in 1883 was \$36,694,490, and the total national debt \$134,672,500. The government is a Federal Republic, modelled on the Constitution of the United States, except that the ministry is responsible to Congress, an adverse vote in the Senate and House leading to the formation of a new tablinet. The laws are the same feal, native or foreign; immigrants are free to naturalize

all, native or foreign; immigrants are free to naturalize themselves as Argentines or te maintain their foreign nationality.

## Austria.

Called, since 1887, the Austro-Hungarian Monarchy (240,000 square miles; population in 1880, 37,741,413), comprises five countries, each bearing the name of kingdom. Its largest sity and capital, Vienna, had 726,185 inhabi ants in 1880.

The population of Austria embraces several distinct races, the most numerous being the German, numbering 9 millions, or 25 per cent. of the whole.

the German, numbering 9 millions, or 25 per cent. of the whole.

The various Slavonic races number about 16% n illions, or 46 per cent., Poles, Creats, Serbians, Czechs, Moravians, etc. The Magyars, or Hungarians, number 5% millions, or 16 per cent.; the Wallachians, nearly 3 millions; the Jews, 1,100,000; the Italians 515,000; and Gypsies, 140,000.

About two-thirds of the people profess the Joman Catholic religion. Education receives great attention, and is open to all at small cost, or even gratuitously. In Austria, all children from six to twelve are boun to attend the common schools, and 76 per cent. actually do so. There are 92 gymmwsia, or higher schools, and 6 universities, while Hungary has 142 gymnasia, and one indversity.

The majority of the people pursue agriculture. About 30 per cent. are engaged in trade or manufactures. The productive land of Austria is estimated at 30 per cent. of its area; Hungary 84 per cent. The great crop is grain, an annual yield of over 400 million bushels. For commerce, Austria is not favorably situated, being an inland country. The principal sea-port is Triest, on the Adriatic. Total imports 1884, 249 million dollars, and exports 299 million dollars.

The legislative body, or Retcherath, consists of a House of Lords nominated by the Emperor, consisting partity of life members and partly of hereditary nobles; and a

Emperor, consisting partly of life members and partly of hereditary nobles; and a House of Representatives, 353 members, elected by all citizens who possess a small property qualification.

Hungary has a Reichstag, consisting of a Bouse of Magnates for high officers and peers of the kingdom, and a House of Representatives elected for three years. The sovereign (the Austro-Hungarian Emperor) is: tyled king in Hungary.

In the imperial finances Austria pays 70 per cent. and Hungary 30 per cent. toward

the expenses of the empire. The budget of 1885 summed up: receipts, 50 million dollars; expenditures, about the same. The budget of Austria proper amounted to 185 million dollars in 1883; the expenditures to \$196,783,934. The Hungarian budget for 1883, including receipts, \$124,306,705, and expenditures, \$124,232,245. The public debt of the empire was \$1,100,370,800.

The army, on a peace footing, consisted in 1885 of 278,506 men and 17,567 officers. Military service is compulsory for ten years.

The navy in 1883 consisted of 71 vessels, 11 of which were ironclads, and 30 steam vessels, with 301 guns,

## Belgium.

Beigium is a kingdom of Western Europe; area, 11,378 aguare miles; population, 1880, 5,519,344, capital, Brussels, 164,593. Most of the people are Roman Cathodras, there being about 16,000 Protestants and 3,000 Jews. Revenue, 1884, \$63,227,830; expenditures, \$65,874,150.

The public debt in 1884 was \$408,992,466. Imports in 1883, \$314,239,840; exports, \$270,054,000. Army, peace footing, 46,383.

Railways in operation, 1884, 2,707 miles, two-thirds of which were owned and managed by the government; miles of telegraph, 1885, 3,717; post-offices, 855; letters carried, 87.71,978; postal cards, 24,730,012; journals, 94,869,000. The great interests are agriculture and manufactures, Beigium being one great workshop. Education is scalosaty promoted by the government, but, notwithstanding abundant primary school provisions, only 58 per cent. of the population above 7 years of age were able to read and write in 1866.

#### Bolivia.

Bolivia, a republic of South America, named in honor of Bolivar, 686,200 square mises; population 1878, estimated, 2,080,000, to which should be added about 245,000 wild indians), is divided into 9 departments, each having a distinct governor. The government is popular in form, three legislative chambers being elected for four years, eight years, and for life. The president is elected for life by a majority of the collective eight years, and for life. The president is elected for life by a majority or use consecute to legislature. The administration belongs wholly to the ministry, which is responsible to the Senate. Religion is free, the Roman Catholic being the prevailing form.

The public debt in 1881 was \$21,925,000. The revenue was \$2,527,515 in 1883, one-fifths of which was derived from customs, about as much from Indian tribute, and half as much from the sale of guano; expenditure, \$3,800,538. Imports in 1881, \$6,150,000; exports, \$9,881,978.

Religious between the best religious constituting graphics of wheat production has

\$5,150,000; exports, \$9,381,978. Bolivis abounds in high plateaus, constituting granaries of wheat production, has much valuable himber, and the lowlands are the seat of tropical forests and swamps, with every variety of climate, and two or more zones of production. It produces coffse, cotton, sugar-canes, garden vegetables and fruits in surprising luxuriance and abundance. Western Bolivis contains the highest mountains of the two Americas, with frequent volcances. The great Cordillers range, reaching up into the region of eternal ice and snow, culminating in the peak of Sorata, 24,800 feet high. The silvernines of Potosit, world-kamous for richness of production, have yielded over \$1,600,000,000 since 1545. Belivia is poorly supplied with roads, and railroads are as yet almost unbown, great natural difficulties being presented to their construction.

#### Brazil.

Brazil, the only kingdom in America, (area, 3,287,964 square miles; population, 1871, 10,108,291.) is the largest of the South American countries. First discovered by Spaniard in 1800, the country early fell into Portuguese possession, afterwards passing under the Spanish rule, but reverting to Portugal in 1840.

The legislative power is vested in a Senate of 58 members elected for life, and a Chamber of Deputies, 122 members, chass for four years by direct suffrage.

The executive power is vested in the emperor, and his ministers and secretaries of state. For administrative purposes, the Brazilian empire is divided into twenty provinces, comprising 648 municipalities, each having a council chosen directly by citi-

The public debt of Brazil-is about \$431,584,400, of which \$85,000,000 consists of paper money issues. The revenue for 1884 was \$66,524,700, more than one-half of which was customs duties, and one-sixth from export duties, the taxes in both these forms on commodities being very heavy. The expenditure in 1884 was \$75,727,168.

The army consists of 13,500 men, raised to 30,000 on a war footing.
The naval force embraces 35 steam vessels, with 122 guns, and 5,704 seamen

Free public schools supported by the state exist throughout the empire, and in some of the provinces instruction is compulsory.

Brazil has about 500 newspapers, of which six dailies are published at the capital,

Rio de Janeiro.

The Roman Catholic religion is esti blished, other forms being tolerated, though they may only be practised privately, and dissenters enjoy civil rights, even that of elec-

may only be practised privately, and dissenters enjoy even rights, consistent to the General Assembly.

Brazilian commerce is flourishing, and there are 23 lines of steam-vessels, receiving annual subsidy from the state to the a nount of \$1,000,000; besides this, the North American steamship line, running between Brazil and New York, enjoyed a Brazilian subsidy of \$100,000 annually. The important in 188 aggregated \$90,354,860, and the exports, chiefly of coffee, hides, and sugar, \$18,354,900. By a decree of 1867, the great river chiefly of coffee, hides, and sugar, \$18,354,900. By a decree of 1867, the great river changon was opened to the trading ships of all nations. In 1874, a submarine telegraph cable was completed from Europe. The roads of Brazil are wretched, but railways have been constructed to the number of over twenty, and are being rapidly extended by the state, as well as by private ent rprise, 3,791 miles of railway being open in 1885.

#### THE DOMINION OF CANADA.

[Compiled from the Sessional Papers of the Dominion of Canada for 1885, and either Official Sources. 1

about 10 millions in value to the United States.

The merchant shipping of the Dominion, January 1, 1884, numbered 7,254 vessels, measuring 1,253,747 tons and is steadily increasing. Value of merchant shipping, \$39,326,880. The canals of Canada are extensive and profitable, and are managed by the Government. The Welland Canal charges 20 cents per ton on grain and other bulky freights, and 2½ cents a ton on each vessel.

The Canadian banks held Jan. 1, 1885, \$100,234,221 in deposits, with a note issue of \$31,935,932; coin, \$6,500,000; and bills discounted, \$145,000,000. The savings-banks held in 1884, \$92,217,587 in deposits, and the post-office (Government) savings-banks, \$13,245,559; in deposits

\$13,245,552 in deposits.

The total money value of the fisheries within the Dominion of Canada has been as

## Commerce of Canada for Seventeen Years-1868-1884.

Statement showing the Values of Total Exports, Imports, and Goods entered for Consumption in the Dominion, with the Duty Collected thereon:

Year ending June 30.	Total Exports.	Total Imports.	Entered for Consumption.	Duty.
1868	\$57,567,888	\$73,459.644	\$71,985,306	\$8,819,432
1869	60,474,781	70,415,165	67,402,170	8,298,910
1870	73,573,490	74,814,339	71,237,663	9,462,940
1871	74,173,618	96,092,971	86,947,482	11.843.656
1872	82,639,663	111,430,527	107,709,116	13,045,493

#### Ohili.

Chii, a republic of South America, area 124,084 square miles, population, 1882, 2,223,434 to which should be added by official estimate, about 50,000 Indians, is a mountainous country subject to frequent earthquakes. It has almost every variety of mountainous country subject to frequent eartinquakes. It has almost every variety of climate, its long narrow territory extending from the hot deserts near the equator to the country is near the level of the sea, while the great Andes range of mountains rise far above the line of perpetual snow, their mean elevation being 11,830 feet, and the highest peak (Aconcagua) 22,427 feet.

peak (Aconcagua) 22,427 feet.

Chili, originally a Spanish settlement, became independent in 1810-17. By the constitution of 1833 the Legislative power is in a National Congress composed of 37 members, elected for six years, and a Chamber of Deputies, 109 members, for three years. Suffrage is universal to citizens able to read and write and paying a small annual tax. The executive power resides in a President elected for five years, a council of State, and five cabinet ministers, having salaries of \$6,000 each.

The national debt in 1884 amounted to \$90,409,840, mostly contracted in England for the construction of railways. The revenue for 1884 was \$38,100,000, one-half derived from customs and monopolies, and the expenditure \$35,980,000. The commerce of Chill is considerable, the exports being \$71,649,522 in 1883, and the imperts \$49,438,021, nearly one half the commerce being with Great Britain.

Agriculture flourishes, although about 82 per cent of the entire surface is desert, pasture, or forests, with only 18 per cent arable land. Wheat is the most important product, the crop averaging ten million bushels, two-thirds of which is exported. Chill is rich in gold, silver, and especially in copper.

Chili is rich in gold, sliver, and especially in copper.

The army, reduced in 1875 to 3,500 men, was largely increased in 1879 on account of the Peruvian war, and numbered, in 1884, 12,410 men.

The navy consists of 10 to 22 steam vessels, manned by 1,729 men.

Education is largely added by government, which supports 30 schools through the country, besides lyceums and the University of Chili, an invaluable government institution, with 700 students, 37 professors, and free instruction.

The Roman Catholic religion is recognized by the constitution, but the public profes-

sion of other forms is tolerated.

#### Chins.

China, an immense empire in Asia, area 4,560,107 square miles, population 375,000,000 China, an immense empire in Asia, area 4,550,107 square miles, population 375,000,000 (estimated), has of late years opened diplomatic and commercial intercourse with other nations. It includes Thet, Mongolia, and Manchuria, besides China proper; the country abounds in numerous rivers, forming the chief highways of the empire. The government is a patriarchal despotism, the Emperor being an autocrat, whose sway is limited only by the sacred right of rebellion. Its vast and productive territory is larger than that of any nation except Russia, and its civilization, the most ancient in the world, has peculiarities unknown to the civilizations of Europe or America. The exclusiveness which long made China a scaled book is slowly giving way, and the empire now sends its ministers to the United States, England, France, Germany, Russia, Spain, the Wast Indias and Lunan: but the Chinese covernment still refuses to open the amplies to sends its ministers to the United States, England, France, Germany, Russia, Spain, the West Indies, and Japan; but the Chinese government still refuses to open the empire to railroads and telegraphs, and destroyed in 1877 the first and only railway laid in the empire; and only 14 of its numerous ports are open to foreign trade. The imports in 1884 were \$102,572,842 and the exports \$93.580,640, about one-third of the commerce is with Great Britain; silk and tea make up three-fourths of the exports, while opium and cotton goods constitute two-thirds of the imports. No certain information regarding Chinese finances exists, but the revenues were estimated in 1882 at \$121,500,000; the public debt is of unknown amount, being wholly domestic, except one foreign lean of \$92,446,000 at 5 per cent. recently contracted, and guaranteed by the customs receipts. The army of Chine has 300,000 men organized after the European custom, while on paper the military force is set down 800,000 Chinese and 271,000 Manchoos. The navy embraces 56 vessels.

#### Colombia.

Colombia (the United States of) is a confederated republic in South America, including a large part of what was called New Granada; area \$20,635 square miles; population, 1870, 2,851,323, besides about 100,000 wild Indians. In present political organization dates from 1863. The largest city is Bogots, the capital, with 50,000 inhabitants, and Panama has about 20,000.

Panama has about 20,000.

The legislative power resides in a Senate of 27 members, and a Representative Chamber of 61, elected by general suffrage. The executive power is exercised by a President chosen for two years by the people of the different States, and by four misters. The revenue is very small, amounting in 1884 to only \$4.145,000, two-thirds of which was from customs. The expenditure was \$3,650,000 in 1883. The public debt amounted to \$21,899,527 in 1884; imports in 1884 to \$11,504.000; exports, \$14,857,000. Coffee, cotton, tobacco, and cinchona bark form a large part of the exports, and agriculture is the leading industry. Only two railways are in operation, the Panama line across the Isthmus, 48 miles, being the principal. Telegraphs, 2,320 miles. Letters carried by post-office, 650,000.

Colombia has he navy, and the army in time of peace musters only \$,000 mea. It eation has been recently much improved, the law of 1870 transferring it from the he of the clergy to the State, and requiring compulsory instruction, the general goves subsidizing the States to maintain schools. Religious freedom provedly, there he State church, though the predominant religion is Roman Catholic.

#### Costa Rica.

Costa Rica, the most southern republic of Central America, area 21,495 square miles, population in 1874, 185,000, mostly of Spanish Coscent, with very slight foreign elements. It is divided into six provinces, the government being vested in a President elected for 4 years, two Vice-Presidents and four ministers. The legislative power is in a Congress

4 years, two Vice-Presidents and four ministers. The legislative power is in a Congress of Departies chosen for 4 years.

The revenue for fiscal year 1884, \$2,559,886, one-third of which is derived from the monopoly of tobacco and brandy by the government, the rest from customs and various taxes. The expenditure was \$2,559,876, and the public debt \$9,421,683. The debt of Costa Rica was "scaled" in 1885, reducing \$24,054,520 to a new 5 per cent. obligation of the preceding amount. The exports of 1883 were \$2,431,785; the imports were \$2,061,895, chiefly manufactures from England.

Where is no standing army except 900 soldlers of the militia, which comprises 18,370 men, or all between the age of 15 and 30. The State Ballgon is Roman Catholic, but 701 religious liberty is guaranteed by the Constitution. The soil is extremely fertile; there are vast forests of mahogany, ebony, Brazil-wood, and India-rubber trees, and the climate fosters almost all the fruits of the tropic and temperate zones, about 1,100 square miles being under cultivation. Ballways,106 miles; telegraphs, 451 miles.

miles being under cultivation. Railways, 165 miles; telegraphs, 451 miles.

#### Cuba.

Cuba, a colony of Spain, in the West Indies, having 72,000 square miles, population, 1876, 1,414,508, half of whom are blacks, and enfranchised slaves. The island is governed by a Captain General, appointed by the Spanish crown. Its great staple is sugar, of which 450,000 to 600,000 tons are annually exported, two-thirds of it to the United States, besides 4,000,000 to 5,000,000 gallons of molasses.

#### Denmark.

Denmark, (area 14,553 square miles; population, 1830 2,096,400), is a constitutional kingdom, occupying an almost insular position between the Norta Sea and the Baltic. The climate is like that of Scotland in the same latitude, the mean temperature of the year being 47° at Copenhagen. The constitutional charter of 1849, vests the legislative the cumate is like that of Scolland in the same latitude, the mean temperature of the year being 47° at Copenhagen. The constitutional charter of 1849, vests the legislative power in the Rigsdag, consisting of a Folkething, 102 members, and a Landsthing, 66 members (1850 charter amended in 1866). The Folkething are elected for three years by universal suffrage, and the Landsthing for eight years by electoral districts, except 12 members who are nominated for life by the King. King, Christian IX; Minister of Finance, J. B. S. Estrup; Minister of the Interior, E. V. R. de Skeel; Minister of Justice, J. M. V. Nellemann; Minister of Worship and Public Instruction, J. F. Seavenius; Minister of Foreign Affairs, Baron de Rosenôrn-Lehn; Minister of War and Marine, Comm. N. F. Raven. The budget for 1883-84, including receipts, \$14,055,700 of which no less than \$8,200,000 from indirect taxes and \$2,300,000 from direct taxes. The expenditure was \$15,786,680, one-fourth of which was on account of the national debt, which amounted in 1883 to \$29,833,773.

The army (recruited by conscription) embraces 35,727 men, besides a reserve of 15,-286. The navy in 1882 included 33 steam vessels with 230 guns, and 29 sail vessels. The commerce of Denmark in 1883 comprised \$80,784,300 imports, and \$55,941,640 exports, the exports chiefly grain and provisions.

There are 1,105 miles of railway, two-thirds of which are operated by the State. The government telegraph embraces 2,283 miles, which transmitted a total of 1,125,000 dispatches in 1883. The postal system, 1833, transmitted 29,573,652 letters and 35,990,087 newspapers.

newspapers.

The established church of Denmark is the Lutheran—Protestant—Roman Cathelies

are however long since tolerated in Scandinavia.

By the census of 1870 there were, Lutherans, 1,777,000; Jews, 4,800; Baptists, 3,200; Mormons, 2,200; Roman Catholics, 1,800.

Education is highly developed by the compulsory system, and almost all the lower classes can read and write.

#### Ecuador.

Ecuador, a South American republic, traversed by the equator, from which it takes its name, area 248,312 square miles, population in 1878, 1,146,000, besides about 200,000 Indians; capital, Quito, has about 80,000 people; Guayaquii, the principal seaport, 28,000. Quito is the loftlest inhabited city, 9500 feet above the sea. The country is traversed by the two vast mountain ranges of the Cordilleras, reaching to a height of 18,000 feet, full of noble volcanic summits, and divided by magnificent valley. \*\*lotopaxi and Chimbo rago are capped with perpetual snow.

The government is vested in a President, chosen by 900 electors appointed by popular vote, the Vice-President, who is Minister of the Interior, and three other cabinet efficers. The Congress consists of a Senate of sixteen, and a House of thirty members

chosen by popular suffrage. The army has only 5,000 men, and the navy three small steamers. The finances, which are in a state of chronic deficit, represented in 1883 revenues (half derived from customs) amounting to \$3,200,000, expenditures, \$2,690,000. The public debt in 1883 was \$12,928,640.

Roads are almost unknown in fleuador, being mostly mere mule tracks, impassable for several months of the year; all transportation of goods is on the backs of mules, wheeled conveyances being almost unknown. There are 75 miles of mules, The principal article of export is seen, amounting to \$4,539,641 in 1883, out of a total of \$7,185,645; the imports were about \$5,000,000.

The sole religion professed is the Roman Catholic, and 10 per can. of the Church revenue belonging to the State goes to the Pope as an annual effering. Education is in the hands of the clergy, with about 600 schools, one university and several colleges.

Egypt, a dependency of Turkey, situated in northern Africa, area 1,162,948 square miles: population in 1877, 17,419,978 (estimated), including Nubia and Soodan. Imports 1884, \$41,820,000; exports, \$63,397,000. More than half the commerce is with Great Britain. The executive power, will folk is absolute, is in the hands of the Khedive, a prince tributary to the Sultan. The largest city is Cairo, 349,883 inhabitants. Revenue \$518,625,840. Army, 17,000 men; navy, 14 vessels. Railways in 1882, 1,276 miles; telegraphs, 5,811 miles. Letters carried by post in 1884, 4,161,000; journals, 1,542,000.

#### France.

The republic of France, (204,036 square miles; population in 1881, 37,672,048.) dates its present constitution and government from the 4th of September, 1870, when the Second Empire, under Napoleon III, came to an end. The legislative power is vested in a Corps Legislative, consisting of a Senate of 300 members, 226 of whom are chosen for 9 years by the Departments and the colonies, and 75 for life by the National Assembly; and a Chamber of Deputies, now 532 members, elected by universal suffrage, one deputy to each 100,000 inhabitants. Salary of Senators and Deputies, \$1,800. Every Frenchman of 21 years has the right to vote, and there were in 1876, 9,948,070 legal voters, a ratio of one voter to every four inhabitants nearly.

voters, a ratio of one voter to every four inhabitants nearly.

The executive power is vested in a President, elected for seven years by a joint assembly of the Senate and the Chamber of Deputies; salary, \$120,000, and \$33,480 for household expenses; he has power to dissolve the Chamber of Deputies upon the advice of the Senate. The ministry, or Secretaries of State, consisting of nine members, are responsible to the Chambers for the political conduct of the government, while the President is responsible only in ease of high treason.

Besides these officers, there is a Council of State presided over by the Minister of Justice, whose function it is te advise on all subjects of law and administrative regulations submitted to it, its decision being final on causes or complaints against officers of the Government.

of the Government.

France is divided into 87 detartments, which are subdivided into 362 "arrondissements," 2865 "cantons," and alout 36,000 "communes." The President of the Repubments," 2005 "cantons," and al-out 36,000 "communes." The President of the Republic appoints a prefect or administrative officer for each department, who is head of the petice, issues local decrees, any existence tax collection, and, in a word, represents the government as general agent, assisted by a council elected by the people.

Public debt is divided into fusided debt, which is not subject to re-imbursement, but only to interest payment, and Seating debt or deposits with the treasury, and bills of exchange called "bons du rress;". The funded usely, represented by 5, 4% and 3 per cent. Rentes, was 34,750,387,109, and the floating debt, \$265,000,000.

Revenue for 1885, \$787,361,000; expenditure, \$763,849,240.

Imports in 1885 amounted to \$905,180,000, and exports the same year to \$670,020,000 Miles of railway, January 1, 1885, 18,023.

The large revenues are derived chiefly from excise and stamp taxes, only the many-infloant sum of \$73,000,000, or about "per cent. of the whole revenue, coming from customs; the land tax or "costribus on foncière," is assessed on the net revenue of lands and house; the poll-tax, the door and window tax, and the Roene tax bring

caseoms; the land tax of "cost to ado noncers," is second on whe het revenue of lands and houses; the poll-lax, the dor and window tax, and the Moense tax bring in large sums; the income tax is 3 per cent. on income from public funds or any ether dividends, besides which the scamp taxes amount to 3 or 4 per cent. on this class property; the excise brings in the largest revenue of all, abeut \$90,000,000 per annum; and is levied on spirits, tobacco, salt, sugar, paper, matches, coaches, railways, bridges, receipts, etc.

The army, consisting of about 514,149 men in time of peace, and 19,057 officers, costs about \$115,000,000 per annum. Myery Frenchman of 20 years owes to the country five

about \$115,000,000 per annum. Myery Frenchman of 20 years owes to the country fiver period the service, with very riight emempticas.

The French navy has 568 vessels, 1,572 officers, and about 41,227 marines.

The Roman Catholic Church we the most powerful in Frence, and the sums paid to the dergy of that faith by the government amount to about \$5,000,000 a year. Systematic provision is made for public instruction, every commune having to majarin primary schools, though education is neither gratuitous nor compulsory. In 1878, out of a population of 25,254,254 above twenty years, 7,762,962 could neither read nor

About half the French people are engaged in agriculture, and the multitude of small landed proprietors is greater proportionally than in any country except the United States; out of 18,513,525 rural population there were 9,000,000 land owners living on their lands, 4,870,000 farmers and tenants, and only 3,255,000 day laborers. The value of land under tillage varied from \$105 to \$323 per acre, and the rent of land from \$3.64 to \$12.14 per acre.

#### Germany.

The empire of Germany, (208,624 square miles; population, 1880, 45,194,172,) succeeded in 1871, 5 the North German Confederation of 1866. It is a Union of 25 sovereign states, consisting of 4 kingdoms, 6 grand duchies, 5 duchies, 7 principalities, and three free towns. Alsace-Lorraine, ceded by France at the close of the war of 1870-71, forms a 26th member of the confederation, but is governed by Imperial authority.

26th member of the confederation, but is governed by Imperial authority. Germany is a constitutional monarchy, the Emperor exercising imperial power in the name of the 25 confederated states. The Bundesrath, or federal council, has 59 members appointed for each session by the governments of the several states. The Beichstag, or House of Representatives, has 397 members, elected for 3 years by universal suffrage—every German of 21 years being an elector. The sessions of the legislature are annual, and every law must receive a majority of the whole number of members of both Houses, and the sanction of the Emperor.

The revenue for fiscal year ending March 31, 1885, was \$141,741,303, derived one-half from customs, one-third excise on sugar, salt, tobacco, spirits and malt, and the remaining quota from various sources. The expenditure for ordinary purposes was \$145,562,940, of which no less than \$90,690,000 was for the army, and \$20,000,000 extra-crdinary expenses. The deficiency in revenue to meet expenditure was made up by contributions of the states, \$26,000,000, and leans \$12,000,000. In 1879, heavy additions were made to the tariff on imported goods, and Germany has returned to an extreme protective system. protective system.

The public debt is only about \$105,000,000 funded, and about \$35,000,000 floating debt,

represented by Treasury notes bearing no interest

represented by Treasury notes bearing no interest. An exclusive gold currency was adopted by law of December 4, 1871.

The German army on a peace footing has been fixed at 445,462 men until December 81, 1885. Military service is compulsory upon every German capable of bearing arms. The German navy consists of 97 vessels, 558 guns, and 16,882 men.

Public school education is compulsory in Germany; the number of primary schools is about 60,000, and of pupils, 6,560,000. There are 360 gymnasis for preparatory training for the universities; of the latter, there are 21, with 1,913 professors, and 29,826 students. students.

The population of Germany in 1875 embraced about 27,000,000 Protestants, 15,000,000

Roman Catholics, and 500,000 Jews.

The foreign commerce of Germany amounted in 1884 to \$822,125,000 imports, \$814,-501,000 exports. Germany had in 1883, 21,693 miles of railway, about 11,000 miles of which were worked

by the government, and 7.689 miles only were private railways.

In 1884 there were 41,411 miles of telegraph lines, sending 17 million messages. The postal and telegraphic departments are managed conjointly by the government, and have increased greatly of late years, the number of letters carried in 1883, being 563 millions, against 352 millions in 1872.

#### Great Britain.

Great Britain, a kingdom embracing England, Wales, Scotland, Ireland, and the Channel Islands, area 121,571 square miles, population 1881, 35,246,833, has also immense landed possessions in all parts of the globe; its colonies in Asia, chiefly British India, embrace over 250,000,000 inhabitants, in America over 5,000,000, and in Australia 2,700,000. By the British constitution the supreme legislative power is in a Parliament which holds for seven years unless sooner dissolved by royal proclamation. The house of Lords (837 members in 1885) consists of 5 peers of the Queen's family, 2 archibishops and 24 bishops, 201 dukes, marquises, earls, and viscounts, 261 barons, 16 Scottish and 28 Irish representative peers; all of these but the last named hold for life. The house of Commons consists of 670 members elected by limited suffrage, of whom 40 constitute a quorum to do business; members of Parliament receive no salary.

The executive government, nominally in the Crown, is practically in the Cabinet, consisting of 13 members whose tenure of office is dependent upon their measures commanding a majority in the House of Commons.

At the head of the Cabinet is the First Lord of the treasury, known as the Premier or Prime Minister; he dispenses the patronage of the Grown, his colleagues being appointed at his recommendation

Revenue of Great Britain fiscal year ending March 31, 1885, \$439,940,550; expenditure \$445,189,415, of which no less than 157 millions was for army and navy and 150 millions more for interest. Public debt, 1885, \$3,701,653,270. Imports, 1885, \$1,950,092,845; ex ports, \$1,479,887,915.

The army in 1883 embraced 181,971 men, and 7,199 officers, besides 136,778 militia and

102,810 volunteers, maintained at a total cost of \$90,901,630. The navy consists of 246 vessels, maintained at a cost of \$53,643,905 in 1883.

The island of Great Britain is a network of railways, of which there were 18,864 miles in operation in 1885. The telegraph embraced 27,105 miles, owned and operated by the

government since 1871. The post-office service of England, carried to a greater perfection than in any other country, delivered 1,360 million letters in 1884, besides 160 million postal cards, and 464 million newspapers and book packets.

Education is widely extended; the total expenditure for elementary schools having the nearly \$20,000,000 in 1888.

England abounds in Iron and coal mines, the product of pig iron amounting to about \$60,000,000 per annum and of coal about \$230,000,000. Textile industries are of enermous extent, employing nearly 1 million hands; the metal manufactures come next employing 650,000 hands. British manufactures are found in all parts of the globe.

Agriculture is carried to a high degree of perfection, though the soil is in the hands

agriculture is carried we a high degree of perfection, though the soil is in the hands of a comparatively small number of proprietors.

Great Britain is a Protestant country, the established church in England being the Episcopal, and in Scotland, Presbyterian, while in Ireland no church is now established by law. Since the abolition of the corn laws or duties upon grain in 1846, England has gradually become a free trade country, cnly about twenty articles being charged with import duties.

#### Greece.

Greece, a kingdom of south-eastern Europe, area 20,018 square miles, population 1879, 1,979,423, is governed, since his election by the National Assembly in 1863, by George I., son of the King of Denmark. By the constitution of 1864, the legislative power resides in a parliament or single Chamber of 187 Deputies elected for 4 years by universal suffrage. The revenue for 1884 was \$14,285,000, a third derived from customs, and the expenditure \$18,060,000. The public debt was \$90,496,660 in 1884. Imports, 1888, \$27,365,852 exports \$18,864,920, principally raisins, currants, and clive oil. The army consists of 30,852 men, capable of being increased to 200,000 in war. The navy has eleven steamers and 10 sailing vessels. The commercial marine numbered no less than 5,001 vessels Greece had, in 1885, 175 miles of railway, mostly of recent construction, and 3,164 miles of telegraph. Post offices, 212; letters carried, 1883, 4,957,270; journals, 8,383,217.

#### Guatemala.

Guatemala, the most populous of the five Central American republics, 44,800 square miles; population, 1884, 1,276,961, of which 360,608 were whites and 890,146 Indians; revenue in 1884, \$8,318,947, third of which was from duties on imports; expenditures, \$8,116,506; public debt, \$8,705,581; imports in 1884, \$3,282,000; exports, \$4,988,000, 1884, principally coffee. The country has 105 miles of railway, and one is commenced traversing the republic from the Caribbean Sea to the Pacific; there are 2,874 miles of telegraph operated by the government. Public instruction is cared for by the government; the army has 2,180 men, but there is no navy. Capital, Guatemala, 55,000 inhabitants, finest city in Central America. The clerical government was overthrown by a revolution in 1871, and the executive now resides in a president and a cabinet of four ministers. ministers.

#### Guiana.

Guiana is a large territory in the north-east part of South America, bounded by the Guiana is a large territory in the north-east part of South America, bounded by the Atlantic, the Amazon and the Orinoco. The climate is hot, and the principal products are sugar, rum, and molasses, together with fine timber woods. British Guiana—96,000 square miles, with 257,473 inhabitants in 1882—18 divided into Essequibo, Demerara, and Berbice; has a governor appointed by the British Crown; capital, Georgetown; population, 36,562. Imports, 1884, \$9,970,240; exports. \$11,610,160. French Guiana, area 48,000 square miles, population 1877, 38,760; capital, Cayenne, on the island of the same name, which is a French penal settlement.

Dutch Guiana, or Surinam, lies between British and French; area 45,000 square miles; population 68,255, four-fifths of whom are negroes; capital, Paramaribo.

#### Haiti.

Haiti is a republic of the West Indies, occupying the west end of the island, of which Haiti is a republic of the West Indice, occupying the west end of the island, of which Santo Domingo forms the eastern or Spanish part. Area of the whole island 28,000 square miles; population of Haiti about 550,000, nine-tenths of whom are negroes, the rest chiefly mulattoes. The language in use is French, and the state religion Catholic. By the constitution of 1867 legislative power is in an assembly and a president, chosen for 4 years. The finances are in chronic disorder; the revenue for 1883 was \$3,488,960, three-fourths derived from duties on imports and exports; the expenditure was \$5,728,940; debt, \$12,507,884. The army has 6,828 men and the navy 2 steam corvettes with 8 guns. In 1884 the imports were \$4,188,650, and the exports \$7,150,281, chiefly coffee, cotton, and cocoa.

## Honduras.

Honduras, one of the five Central American republics-58,168 square miles, population Honduras, one of the nye central American republics—58,168 square miles, population 576,410—18 governed by a president, a single minister, and an assembly of 37 representatives. Revenue for 1884 was \$1,190,000, a third from customs and about a third from monopolies, the expenditure reaching nearly same amount. National debt,\$31,000,000, interest mostly unpaid. The exports amount to about \$1,605,000. The array numbers about 1,500 miles of telegraph. Education is becoming a prominent interest, and the government established a national college in 1878.

#### Italy.

Italy, a kingdom of southern Europe; area 114,380 square miles, population 1881, 26,459,451 of whom 26,658,679 were Catholics. It is divided into 69 provinces. The government is a constitutional monarchy, with a senate of 270 members appointed for life, and a chamber of 508 deputies elected by general suffrage. Absolute freedom of the press prevails. The government supports education, which is compulsory and gratuitous, by annual subsidies of about \$5,500,000. Agriculture is the principal Italian gratutous, by annual superines of about \$3,00,000. Agriculture is the principal statistical state of the principal statistics, though the silk, cotton, woolen, and straw manufactures are becoming important. Italy abounds in populous cities, of which Naples, 450,304, is the largest, and Rome, the capital, has 303,383. Revenue in 1884, \$273,586,180; expenditure, \$276,285,280, public debt, \$2,201,903,485; imports, 1884, \$270,363,950; experts, \$219,680,450, of which silk made \$56,000,000. Standing army, 881,203; militia, \$25,258; navy, 130 vessels with 205 guns; 5,862 miles of railway in 1884, and 17,674 miles of telegraph.

Japan.

Japan is an empire of Eastern Asia, ruled by a mikado, aided by a great council, and without a legislative body; area, 146,613 square miles; population, 1882, 36,700,118. Revenue, 1881, \$75,606,059; four-fifths of which was from land tax; expenditures, \$75,606,059; public debt, \$250,379,175. The army comprised 63,194 men in 1885, and the navy 29 steam vessels with 4,073 men. Imports, 1884, \$29,168,041; exports, \$33,225,775, one-half of which was raw silk. Nearly one-half the commerce of Japan is with Great Britain and her colonies. Railroads in operation, 220 miles; telegraphs, 4,841 miles; post-offices, 5,316, transmitting in 1883, 50,008,851 letters. The paper money of Japan is at about 30 per cent. discount.

#### Mexico.

Mexico, a republic of North America, on the southern boundary of the United States— are 741,598 square miles, population 1877, 9,389,481—is divided into 27 states besides Lower California and the federal district, governed by a president elected for 4 years, Lower California and the federal district, governed by a president elected for 4 years, as Sensie of 56 members chosen for 6 years, and a House of Deputies of 331 members for 2 years. The chicf justice of the Supreme Court, elected for 6 years, is ex-officired to the republic. Each state has its local constitution, with elective governors and legislatures. The national language is Spanish, and the Catholic religion predominates, though all are equally protected. Education is being rapidly extended, there being 4000 public schools. Railway communication, formerly confined to a line from Vera Grus to the City of Mexico, 263 miles, is becoming more general. There are about 19,278 miles of telegraph. The chief communication is by the highways between principal cities, on which many lines of stages are constantly plying. The country is the internal wealth was tablelends waveled the service wavelet the communication and mineral wealth was tablelends. principal cities, on which many lines of stages are constantly plying. The country is rich in agriculture and mineral wealth, vast table-lands, varying from 3000 to 5000 feet in elevation, producing almost every variety of grain and vegetables, while in the warmer regions oranges and other tropical fruits grow profusely. Coffee and cotton are largely cultivated. The northern states of Mexico are full of vast herds of cattle and sheep. Manufactures are poorly developed, but commerce, though much impeded by political turbulence and restrictive laws, is on the increase. The imports amount to a mean annual value of \$30,271,000 and the experts \$46,375,600, more than one-third of which go to Great Britain; but the large increase of commerce springs mainly from rauggling, which is directly festered by exorbitant duties on imports, practically amounting to prohibition. The country being almost destitute of navigable rivers, the passe of carriage are enormous, and must so continue until the coentry can be traversed with competing lines of railway of which 8,694 miles were open in 1885.

The revenue for the fiscal year 1884 was \$25,425,000, of which \$12,500,000 was from customs duties; the expenditure was \$24,072,000, more than one-third of which was for the army. The public debt is variously stated at from \$144,700,000 to \$396,500,000; but the Mexican Government claims that its European debt is annulled by the part taken

the Mexican Government claims that its European debt is annulled by the part taken by England, France and Spain in imposing the Maximilian dynasty upon the republic

ta 1861-62.

The army comprises 22,830 men, the navy only 8 insignificant gunboats. Capital, Mexico, buil: in 1521, on Lake Tezcoco, 7435 feet above the sea level; population about 259,000.

#### Netherlands.

Netherlands. a kingdom of Western Europe; area. 12.727 square miles; population 1880, 4,060,580 (by census), nearly all natives of Holland. Revenue, 1884, \$41,503,747; expenditure, \$55,714,547; public debt, 1884, \$482,491,640. Army in 1884, 65,113 men; navy, 1885, 141 vessels, 503 guns, and 6,605 men. Imports, 1883, \$894,560,890; exports, \$258,469,840. Railways in 1883, 1,390 miles, more than half managed by the State; telegraphs, 2,815 miles. Post-offices, 1,300; letters carried in 1884, 61,394,692; journals, 46,646,830.

#### Nicaragua.

Nicaragua, one of the five republics of Central America-area, 58,000 square miles; population, 300,000 (estimated), one-half of whom are Indians—is in large part covered with great forests, furnishing the finest mahogany, rosewood, and dye-woods. The

country has long been distracted by internal dissensions; it is governed by a president elected for 4 years, a cabinet of 4 ministers, a senate of 10 members, and an assembly of 11 representatives. The revenue amounted in 1882 to \$1,624,180, and the expenditure rather more, chiefly for the army and public debt of \$1,128,274. The exports amounted to \$4,022,000, and the imports to \$3,862,000. The principal exports were coffee, elastic gum, and gold and silver bullion.

#### Paraguay.

Paraguay, an inland republic of South America—area 91,990 square miles, population in 1876, 293,844—is a country without cities and almost without civilization. The language spoken is chiefly that of the Indians mixed with a little Spanish. The country achieved independence in 1811, and was ruled by the dictator, Dr. Francia, for 29 years, during which no foreigners were allowed to enter or leave Paraguay. Since 1870 the government, though nominally republican, has been under the control of Brazil. The government, though nominally republican, has been under the control of Brazil. The country is hopelessly insolvent, owing \$236,000,000 to Brazil and the other allies as a legacy of the war, \$9,000,000 to Great Britain, and \$2,100,000 domestic debt, reduced in 1822 by selling national property to \$17,461,179. Revenue in 1884, \$1,083,574; expenses, \$1,168,000, besides interest and army. The imports in 1854, \$1,448,000, and the exports, \$1,572,000. The army embraces 500 men, mostly now discharged to relieve the treasury of expense. The only rallway in Paraguay is one of 45 miles, and the only telegraph is of the same length.

#### Peru.

Peru, a republic on the western coast of South America, (area 432,297 square miles; population in 1876, 3,050,000,) is governed, under a constitution adopted in 1888, by a President chosen for 4 years, a Senate of 44, and a House of Representatives of 110 members. The revenue for 1879 was \$66,900,000, about one-ninth of which was from customs, the expenditures \$68,600,000; the public debt was \$241,640,684, the interest on the foreign debt being in default. The revenue is chiefly derived from the sale of guano and nitrate of sods. The importations of 1883 were \$11,046,744, and the exports, \$7,956,625. The premium on specie is 62 per cent., and the domestic debt sells

at 50 cents on the dollar.

The army consists of 4,670 men, besides 1,000 gendarmes and 1,200 vigilantes; during the war with Chili, lasting from 1879 to 1881, Peru put about 16,000 men in the field; the navy consisted of 18 steam vessels, well armed and equipped, of 3,396 horse power, and 66 guis, among which were seven ironclads and rams which were captured by the Chilians. The merchant marine in 1876 had 147 sailing ships and 8 steamers. In 1883 there were 1,750 completed miles of railway and 600 more in construction, Peru having gone into the most extensive railroad building in proportion to its inhabitants of any country. Silver is largely mined, the annual product being from 3 to 4 million dollars, and coinage is free and unlimited. Peru has a fertile soil, producing cotton, sugar, grapes, and clives, while the forests abound in the cinchona-tree, which yields the precious Peruvian bark, or quinine.

Capital, Lima; population in 1876, 101,488.

#### Portugal.

Portugal, a kingdom of Western Europe; area, 84,595 square miles; population 1878, 4,348,551. The legislative power is in a Cortes with a Chamber of 100 peers, appointed 4.345.501. The legislative power is in a cortes with a Chamber of 100 peers, appointed for life by the king, and a Chamber of Deputies 149, elected by the people. Revenue 1884, \$32,114,670; expenditure, \$33,465,449; public debt, 1884, \$532,314,570. Imports in 1884, \$32,269,640; exports, \$22,328,300. Army, 1885, 88,994; navy, 44 vessels, with 156 guns and 3,470 men. Railways in 1885, 998 miles; telegraphs, 3,020 miles; post-offices, 975; letters carried, 15,229,321 in 1883.

#### Russia.

Russia, an empire of Eastern Europe and Western Asia; total area, 8,138,541 square miles; population, 98,356,100. Revenue, 1833, \$450,375,365; expenditure, \$459,063,204; public debt, 1884, \$2,650,862,201, since which loans and paper to the amount of \$340,000,000 have been issued. The cost of the war in 1877-78 with Turkey and her allies was stated officially in June, 1878, at 1,060 millions. The army in 1835 embraced, 780,061 men; navy, 389 men-of-war with 942 guns. Imports, 1882, \$238,421,640; exports, \$351,264,960. Railways in 1835, 15,885; telegraphs, 69,412 miles. Post-offices, 4,663; letters carried, 138,838,693; postal cards, 2,685,709; journals, 100,602,630 in 1838. Amount of paper money (irredeemable) was, in 1879, 850 millions, which is depreciated about \$00 recreat. 80 per cent.

## Salvador.

Salvador, (sometimes called San Salvador, the name of its capital city,) is the smallest of the five Central American republics; area, 7,226 square miles; population in 1878, 422,422. It is governed by a President elected for four years, a ministry of five members, and a Congress of 12 Senators and 24 Deputies, elected for 2 years. Sufface is aniversal, except for servants and persons without legal occupation. Education, though not general, is in advance of other Central American States; the Roman Catholic religion is recognized, but others protected. The army has 1,000 men. Revenue, 1884, \$4,067,300; expenditure, \$4,057,000; national debt, \$4,521,489; imports in 1884, \$2,646,628; exports, \$6,065,799, nearly one-half of which was indigo, and one-third coffee. About one-half the commerce of Salvador is with Great Britain.

#### Santo Domingo.

Santo Dominge, a republic of the West Indies, forms the larger portion of the island of Haiti, lying east of the republic of that name; area, 20,591 square miles; population in 1876, 250,000 (estimated,) principally mixed Spaniards, Indians and negroes. The national language is Spanish, and the established religion Roman Catholic. The government is vested in a President elected for six years, who appoints a Council of four ministers, a Senate of 9 members also chosen for six years, and a House of 15 members. Revenue in 1883, \$1,533,625; expenditure, \$947,005; foreign debt contracted in London in 1889, \$3,780,050, which was repudiated in 1872; internal debt, \$3,910,200. Imports, 1894, \$1,990,702; exports, \$2,080,256. The soil is of extraordinary fertility, the climate soft and inviting, and much more salubrious than any other part of the West Indies. Civilization is extremely backward, and public education neglected. There are literally no good roads on the island, transportation being almost wholly on the backs of horses and mules. The army consists or 4,000 men, and the navy of 8 small vessels, with 44 guns. The capital, Santo Domingo, has about 6,000 inhabitants.

#### Spain.

Spain, a kingdom of Western Europe; area, 193,171 square miles; population 1877, 16,383,233. The legislative power is in the Cortes, a Senate, and a Chamber of Deputies elected for five years by indirect suffrage. Revenue, 1884, \$165,063,230; expenditure, \$183,045,230; public debt, 1884, \$1,820,000,000; imports, 1884, \$168,689,230; exports, \$143,833,683; army in peace, 93,638 men; navy, 134 vessels and 490 guns. Railways, 1884, 5,600 miles; telegraphs, 10,417 miles; post-offices, 2,655; letters carried, 1883, 83,235,338.

#### Sweden and Norway.

Sweden and Norway, a kingdom of Northwestern Europe; united under one dynasty. Sweden, 170,987 square miles; population, 1881, 4,565,665; revenue, \$27,878,000; expenditure, \$25,509,250; public debt, 1883, \$63,372,410; army, 40,548 men; navy, 42 steamers and 97 small vessels, with 218 guns. Imports, 1882, \$63,840,000; exports, \$70,524,000. Nearly one-half the commerce is with Great Britain. Railways, 4,092 miles, one-half of the commerce is with Great Britain. Railways, 4,092 miles, one-hird operated by the State; telegraphs, 8,421 miles; post-offices, 1,800; letters in 1883, 41,519,212.

Norway, 122,823 square miles; population, 1876, 1,806,900. Revenue, 1886, \$13,188,640; expenditure, \$13,407,725; public debt, 1883, \$29,791,240; imports, 1884, \$52,648,290; exports, \$16,309,448; army, 18,750 men; navy in 1885, \$9 steamers and 88 small vessels, with 164 guns. Rallways, 972 miles; telegraphs, 5,672 miles, nearly all operated by the government. Post-offices in 1884, 1,070; letters carried, 18,567,844; journals, 15,788,454.

#### Switzerland.

Switzerland, a republic of Central Europe; area, 15,908 square miles; population, 1890, 2,831,787, (census.) By the federal constitution of 1874, the legislative body consists of a national council of 141 members, or one to every 20,000 inhabitants, elected for three years; and of a council of states of 44 members, two for each canton. The executive power is in a federal council, chosen for three years by the federal casembly (National Council and Council of States United) and in a President of the Swiss Confederation, elected for one year by the federal assembly from the members of the federal council. Revenue, 1884, \$9,025,600; expenditure, \$9,085,600; debt, \$6,120,780. Army (all men between 22 and 29), 114,228, besides the Landwehr, comprising all between 38 and 44, 85,828 in 1885. The commerce of Switzerland is not officially reported in money values. Railways, 1,835 miles; telegraphs, 4,220 miles. Post-offices, 2,874; letters carried, 49,273,039; journals, 56,637,975.

#### Turkey.

Turkey, a monarchy of Southern Europe and Western Asia; area, 385,110 square miles; population in Europe, 8,866,500; in Asia, 16,629,960 (estimated) in 1879. The government is a constitutional monarchy since 1876, the Sultan being the irresponsible sovereign, convoking and dissolving the General Assembly at his pleasure. The ministers are responsible to the Chamber of Deputies; the senate are nominated for life by the Sultan, and the deputies elected by secret ballot, one to every 150,000 males.

The financial affairs of Turkey after the long war are greatly involved, the revenue being \$58,420,000, and the expenditures \$76,425,000. Public debt amounted in 1884 to \$744,838,018. No official statistics regarding commerce exist. Imports are estimated at \$87,000,000, and exports at \$88,000,000 annually. Army (compulsory service for 20 years), 160,417 men in time of peace; navy, 116 steam vessels, 50 sail vessels, and 1,600 guns. Railways, 889 miles; telegraphs, 17,050 miles.

#### Uruguay.

Grugusy A republic of South America—area, 72,151 square miles, population, 1877, 247,000 (estimated)—is governed by a President, a ministry of 4 cabinet officers, and a legislature composed of 13 Senators and 40 Representatives. The revenue in 1894 was \$12,387,975, three-fourths of which was from customs duties; the expenditures \$12,259,-140, nearly half of which was for the army and navy. The public debt in 1883 was \$61,579,204; paper money to the amount of \$6,000,000 was no longer current in commerce, though received by the government. Payment of interest on the debt has been lately resumed.

The imports in 1884 were \$21,620,000, and the exports \$48,450,000, of which 6 millions

was hides.

The army consists of 3,061 men. 418 miles of railway are in operation, and 1,405 miles of telegraph. There are 234 post-offices; letters mailed in 1883, 1,590,000. Capital, Montevideo; population, 1877, 91,167. About half the property of the republic belongs to foreigners, principally Spaniards, Italians, and Brazilians.

#### Venezuela.

Venezuela (United States of), a republic formed after the dissulption of the old republic of Colombia, dates from the constitution of 1864. It has 433,119 square miles, and 1,784,197 inhabitants in 1873. The confederation consists of 20 States, besides the federal district, each having its own distinct government, and electing delegates to the Congress, which meets annually at Caracas, the capital city, of 48,897 inhabitants. The President is elected for two years.

The revenue for 1883 was \$5,501,000, four-fifths of which came from customs and tonnage duties; the expenditure, \$5,320,405. The public debt in 1883 was \$21,010,000, payment of interest on which was resumed in 1875. The imports were \$17,800,000 in 1883, and the exports \$19,300,000, chiefly coffee and cocca. The only railway, 94 miles long, was opened in 1877. The army consists of 3,000 men.

#### PROPURTION OF CHECKS TO CURRENCY, &c., IN BUSINESS EXCHANGES.

Receipts of Coin, Currency, Checks and Drafts, &c., of the National Banks.

From the Report of the Comptroller of the Currency, December, 1881. Table of total receipts of the national banks in New York City, in other reserve cities, and of the able of total receipts of the matterns visites in 1100 1011, with the percentages thereto of gold coin, banks elsewhere in the United States, on June 30, 1881, with the percentages thereto of gold coin, silver coin, paper currency, and of checks, drafts, dec.

The figures before the names of the Associate Justices indicate the order of their appointment. The numbers following refer to the same numbers in the first column, and show the vacancy filled by each appointment.

Resigned.

<sup>#</sup>Presided one term of the Court; appointment not confirmed by the Senate.

i The Supreme Court, at its first session in 1790, consisted of a Chief-Justice and five Associates. The number of Associate-Justices was increased to six in 1807 by the appointment of Thomas Todd; increased to eight in 1837 by the appointments of John Catron and John McKinley; increased to nine in 1863 by the appointment of Stephen J. Field; decreased to eight on the death of John Catron in 1865; decreased to seven of the death of James M. Wayne, in 1867; and again increased to eight in 1870.

` ·	49th } 18tDec.	

Nors.—To determine the years covered by a given Congress, double the number of the Congress, and add the product to 1789; the result will be the year in which the Congress alosed. Thus, the 55th Congress = 78 + 1789 = 1859, that being the year which terminated the 55th Congress, on the 4th of March. To find the number of a Cengress sitting in any given year, subtract 1789 from the year; if the result is an even number, half that number will give the Congress, of which the year in question will be the closing year. If the result is an edd number, add one to it, and half the result will give the Congress, of which the year in question will be the first year.

# APPOETIONMENT OF REPRESENTATIVES IN CONGRESS, AND RATIO OF REPRESENTATION BY THE CONSTITUTION AND AT EACH CENSUS.

Van Eaton, Henry S., Woodville, Miss.

Van Schaick, Isaac W., Milwaukee, Wis. Viele, Egbert L., New York City.

Wade, William H., Springfield, Mo. Wadsworth, William H., Maysville, Ky. Wait, John T., Norwich, Conn. Wakefield, Jas. B., Blue Earth City, Minn. Ward, Thomas B., Lafayette, Ind. Warner, Adoniram J., Mariette, Ohio. Warner, Adoniram J., Mariette, Ohio. Warner, William, Kansas City, Mo. Weaver, Archibald J., Falls City, Neb. Weaver, James B., Bloomfield, Iowa. Weber, John B., West Seneca, N. Y. Wellborn, Olin, Dallas, Texas. West, George, Ballston, N. Y. Wheeler, Joseph, Wheeler, Ala. White, Alexander C., Brookville, Pa. White, Milo, Chatfield, Minn. Whiting, William, Holyoke, Mass. Wilkins, Beriah, Uhrichsville, Ohio. Willis, Albert S., Louisville, Ky. Wilson, William L., Charlestown, W. Va. Wisco, George D., Richmond, Va. Worthington, Nicholas E., Peoria, Ill.

## PRINCIPAL OFFICERS OF THE SENATE.

President of the Senate pro tempore.—John Sherman.

Chaplain.—Rev. Elias D. Huntley.

Secretary of the Senate.—Anson G. McCook.

Chief Clerk.-Charles W. Johnson.

Principal Executive Clerk.—James R. Young.

Principal Legislative Clerk.-Henry H. Gilfry.

Sergeant-at-Arms.-William P. Canaday.

Postmaster.—James W. Allen.

Superintendent of Folding-Room.-John S. Hickcox.

Superintendent of Document-room.—Amzi Smith.

## Official Reporters of Debates.

D. F. Murphy.

Assistants.—Theo. F. Shuev, E. V. Murphy, Henry J. Gensler, D. B. Lloyd.

#### PRINCIPAL OFFICERS OF THE HOUSE.

Speaker.-John G. Carlisle, of Kentucky.

Chaplain.—Rev. W. H. Milburn.

Clerk of the House.—John B. Clark, Jr.

Chief Clerk .- Thomas O. Towles.

Journal Clerk.-Henry H. Smith.

Sergeant-at-Arms.-John P. Leedom.

Postmaster.-Lycurgus Dalton.

Doorkeeper .- Samuel Donelson.

Superintendent of Folding-Room.-J. G Healy.

Superintendent of Upper Document-Room.-A. W. Gibson,

Superintendent of Clerk's Document-Room,-P. H. Pernot.

Librarian.-William Butler.

## Official Reporters of Debates.

John J. McElhone, Chief of Corps.

Andrew Devine.

David Wolfe Brown.

John H. White.

J. K. Edwards.

## OFFICERS OF CONGRESS.

Librarian of Congress.—Ainsworth R. Spofford.

Public Printer.--S. P. Rounds.

## COMMITTEES OF THE SENATE .- 49th Congress, 1885-1887.

The first-named Senator on each Committee is its Chairman. STANDING COMMITTEES.

Agriculture	and Forestry.
Miller, N. Y.	George,
Blair,	Fair,
Plumb,	Gibson,
Van Wyck,	Jones, Ark.
Sawver.	

Appropriations.

Norg.—All the 38 States limit "ufrage to male citizens, but in Colorado, Massachusetts and some other States women may vote at school-district elections.

## THE PRESIDENT OF THE UNITED STATES AND HIS CABINET.

The Presidential term which began March 4, 1885, is the twenty-fifth quadrennial term since George Washington came to the Presidency in 1789.

Grover Cleveland, the twenty-second Presidency in 1789.

Grover Cleveland, the twenty-second Presidency in 1789.

Grover Cleveland, the twenty-second President of the United States in the order of individual officers, was born at Caldwell, New Jersey, March 18, 1837. Educated in the public schools and at Clinton, N. Y., Academy, he became a teacher in an institution for the blind, but removed to Buffalo in 1855, where he became a prominent member of the bar. In 1863 he was Assistant District-Attorney, and was elected Sheriff of the county in 1870. In 1831 he received the Democratic nomination for Mayor of Buffalo, and was elected in a strongly Republican city as a reform candidate. His administration of this high municipal office was marked by ability, courage, and independence. Nominated for Governor of the State of New York in the Fall of 1889, on the Democratic ticket, he was elected by the unprecedented majority of 28,854 votes, receiving a heavy Independent and Republican support. As Governor, Mr. Cleveland pursued a policy of marked vigor and independence, and he speedily became the most available candidate for the Presidency, for which office he was nominated by the Democratic National Convention at Chicago, July 10, 1884, receiving 688 votes against 187 for all others. The election resulted in the choice of Cleveland and Hendricks, who carried twenty States out of thirty-eight, receiving a plurality of 65,959 popular votes,

available candidate for the Presidency, for which office he was nominated by the Democratic National Convention at Chicago, July 10, 1884, receiving 888 votes against 187 for all others. The election resulted in the choice of Cleveland and Hendricks, who carried twenty States out of thirty-eight, receiving a plurality of 65,985 popular votes, and 219 electoral votes against 182 votes for Blaine and Logan, Republicans. He was inaugurated President March 4, 1885, in the presence of an immense concourse of citizens from all parts of the country.

Thomas F. Bayard, of Delaware, Secretary of State, was born at Wilmington, Del., Oct. 29, 1829, being the son of Senator James A. Bayard. Educated at a private school, he was engaged in mercantile business in New York and Philadelphia, but returned to Wilmington in 1848, studied law, and became prominent at the bar. In 1858 he was U. S. District-Attorney for Delaware, and in 1859 he was elected U. S. Senator, serving from March 4, 1869, to March 4, 1868, by two successive reflections. He took a leading position in the Senate, and was largely supported as a candidate for the Presidency in local and national conventions of the Democratic party. He was nominated by President Cleveland and confirmed by the Senate as Secretary of State, March 6, 1886.

Daniel Manning, of New York, Secretary of the Treasury, was born at Albany, N. Y., in 1881. In very early years he was employed in a printing-office, where he rose rapidly by intelligence and industry until he became President of the Albany Argus Publishing Co. in 1873. His service as a bank president in Albany gave him financial experience, and he was for many years an active Democratic of the Albany Argus Publishing Co. in 1873. He was an an active Democratic and instance of the New York State Committee of that party, and a member of the Democratic National Conventions of 1876 and 1884. He became Secretary of the Treasury, March 6, 1886. William C. Endicott, of Massachusetts, Secretary of War, was born at Salem, Mass., in 1827

sity at Madison. Taking an active part in politics, he was elected president of the National Democratic Convention at Chicago, in 1884; and was appointed and confirmed as Postmaster-General, March 6, 1885.

Lucius Q. C. Lamar, of Mississippi, Secretary of the Interior, was born in Georgia, Sept. 17, 1825. Graduating at Emory College in 1845, he studied law at Macon, and came to the bar in 1847. Removing to Oxford, Miss., in 1849, he became professor of mathematics in the State University, but soon returned to Georgia, being elected to the legislature in 1858. He was elected to Congress from Mississippi, serving in the House from Dec. 1857 to Jan. 1861. He served in the Confederate army as Colonel, and was intrusted with a diplomatic mission to Russia. In 1866 he became professor of political economy, and later of law, in the University of Mississippi. Elected to the 43d and 44th Congresses (1873-77), he was afterwards twice chosen United State Senator from Mississippi, serving from March 4, 1877, to March 4, 1885. In Congress he was distinguished for ability, eloquence, and integrity. He was nominated for Secretary of the Interior by President Cleveland, and confirmed March 6, 1885.

Augustus H. Garland. of Arkansas, Attorney-General of the United States, was born in Tennessee, June 11, 1832, received a classical education, studied law, and practised as early as 1853 in Arkansas. He was a delegate to the State Secession Convention in 1861, Representative and Senator in the Confederate Congress, and was elected to the U. S. Senate in 1867 (though not then admitted), and Governor of Arkansas in 1874. He made a notable and very able argument in the Test-Oath case as to lawyers in the U. S. Supreme Court, which was decided in his favor. He was elected to the Senate and served from March 4, 1877, to March 4, 1885, when he became Attorney-General by appointment of President Cleveland.

Note.—The Salaries of Internal Revenue Collectors are graduated annually in proportion to the amount of revenue collected by each—the maximum salary being limited to \$4,500

by law.

The numbers of collection districts are those retained when the districts in various States were consolidated by law, and those bearing the intervening numbers were abolished.

By executive order Sept. 5, 1883, forty-three Internal Revenue Collectors were dispensed with, their districts being consolidated with others in the above table.

M. R., Minister Resident: C. G., Consul-General.
 E. E. and M. P., Envoy Extraordinary and Minister Plenipotentiary.
 The Secretary is also Consul-General, receiving for both offices \$2,000.

#### UNITED STATES CONSULAR SERVICE.

	s, consuls-general, and commercial ages	
the United States, the amount of whose		
nually. By the statutes of the United St	tates the salaried consulates are divided	into
seven classes, besides other subdivisions, v	vith specific fixed salaries for each, as fol	lows:
Five consulates at	0   Twenty-one consulates at	<b>ks</b> .000
Three " at 5.00	0 Twenty-two " at	2,500
One consulate at	0   Forty-four " at	
Five consulates at 4,00	0   Sixty-one " at	
Seven " at 3,50	0 Twenty-six " at	1,000

By law all consuls receiving a fixed salary are required to pay into the Treasury. without reduction, all fees received by virtue of their offices. At some other consulates and consular agencies the fees collected form the sole compensation of the incumbent, which, however, is limited in the case of consular agents to a maximum of \$1,000; and such agents are allowed to transact business. The compensation of the feed consuls is limited to \$2,500. If the fees exceed that sum, such consuls can pay clerk-hire from the fees received at the consulate when specially authorized, but not otherwise. The column of fees shows the amount of fees received at each consulate and agency from which returns have been made for the fiscal year ending June 30, 1885.

## Corrected at the Department of State, December, 1885.

C.A. means Commercial Agent, A. Agent; C.G. Consul-General; C.C. Consular Clerk.

#### THE ARMY OF THE UNITED STATES.

[Summarised from the Annual Report of the Lieutenant-General of the Army, October, 1885.]

The Army of the United States on the 30th of June, 1885, consisted of the following forces, in officers and men:

•	Officers.	Enlisted Men.
Ten cavalry regiments	424	7,135
Five artillery regiments	280	2,507
Twenty-five infantry regiments	863	10,971
Engineer battalion, recruiting parties, ordnance de- partment, hospital service, Iudian scouts, West		
Point, Signal detachment, and general service		4,092
Total	2,154	24,705

For convenience, and to fix responsibility, the country is divided into three military divisions, each with several departments, as follows:

- Military division of the Missouri, commanded by Major-General John M. Schofield, headquarters Chicago, comprehends the departments of the Missouri (Brig.-Gen. Nelson A. Miles); Texas (Brig.-Gen. David S. Stanley); Dakota (Brig.-Gen. A. H. Terry); and the Platte (Brig.-Gen. O. O. Howard). There are 7 regiments of cavalry and 19 of infantry in this division.
- 2. Military division of the Atlantic, commanded by Major-General Winfield S. Hancock, headquarters New York. Includes department of the East (Maj.-Gen. Hancock). This division comprises 4 regiments of artillery and 2 of infantry.
- 3. Military division of the Pacific, commanded by Major-General John Pope, headquarters San Francisco. Includes departments of California (Maj.-Gen. John Pope); the Columbia (Brig.-Gen. John Gibbon); Arizona (Brig.-Gen. George Crook); comprises 1 regiment of artillery, 3 of cavalry, and 4 of infantry.
- The maximum military force allowed under existing laws is 2155 commissioned officers and 25,000 enlisted men. The Report of the Lieutenant-General of the Army exhibits the actual number in service as 2154 officers and 24,705 enlisted men. The following table exhibits the number in each rank of the army:
- 1. COMMISSIONED OFFICERS: Colonels, 68; lieutenant-colonels, 89; majors, 235; captains, 610; adjutants, 40; regimental quarter-masters, 40; first lieutenants, 563; second lieutenants, 442; chaplains, 34; storekeepers, 13; total, 2154.
- 2. THE ENLISTED MEN embrace 37 sergeant majors, 38 quartermaster sergeants, 610 musicians, 226 trumpeters, 10 saddler sergeants, 106 ordnance-sergeants, 139 hospital stewards, 122 commissary-sergeants, 424 first sergeants, 2186 sergeants, 1768 corporals, 216 farriers, 120 artificers, 114 saddlers, 93 wagoners, and 18,426 privates, total, 24,705. Besides these, there are employed in the Signal Corps 494 non-commissioned officers and privates; Military Academy, 7 professors, 238 cadets, 190 enlisted men: total, 502.

The number of retired army officers is 520; number of privates discharged during the fiscal year 1885, 5610; number died during same period, 234; number deserted 2927; number enlisted and re-enlisted, 8490.

#### PAY OF THE ARMY OF THE UNITED STATES.

[From the Official Army Register, 1883]

	Payof	Pay of Retired Officers.								
		Ye	arly P	ay.			Y	early	Pay.	
GRADE OR RANK.	First 5 years service.	5	After 10 years ser- vice.	After 15 years ser- vice.	After 20 years ser- vice.	First 5 years ser- vice.	5	10	After 15 years ser- vice.	20
Lieutenant-General Major-General Brigadier-General Colonel Lieutenant-Colonel Major Captain, mounted Captain, not mounted Regimental Adjutant	11,000 7,500 5,500 3,500 3,000 2,500 2,000 1,800 1,800	\$3,850 3,300 2,750 2,200 1,980	\$4,200 3,600 3,000 2,400 2,160	3,250 2,600 2,340		\$5,625 4,125 2,625	\$2,887 2,475 2,062 1,650	\$3,150 2,700 2,250 1,800	\$3,375 2,925 2,437 1,950	\$3,375 3,000 2,625 2,100
Regimental Quartermas- ter	1,800 1,600 1,500 1,500	1,760	1,920 1,800 1,800	1,950 1,950 1,950	1,960	1,125 1,050	1,237 1,237 1,155	1,350 1,350 1,260	1,560 1,462 1,462 1,365 1,755	1,575 1,575 1,470

<sup>\*</sup>The maximum pay of colonels is limited to \$4,500, and of lieutenant-colonels to \$4,000.

The law provides for the retirement from active service of any commissioned officer who has served 30 years as such, on his own application, at the discretion of the President; or for placing on the retired list, unconditionally, after 40 years service, any officer applying to be retired: or, if 45 years of actual service, or 62 years of age is reached, an officer may be retired at the discretion of the President.

The number of officers on the retired list is limited to 400 by law. The pay is fixed at 75 per cent. of the pay allotted to the rank of officers in active service at the time of retirement.

#### QUARTERS, FUEL AND FORAGE ALLOWED TO ARMY OFFICERS.

By Act of June 18, 1878, all allowance or commutation for fuel was prohibited, but wood is furnished at \$5 per cord, out of the pay of officers. Forage is furnished only in kind, and only to officers actually in the field or west of the Mississippi, on the basis of five horses for the General of the Army, four for the Lieutenant-General, three each for a major or a brigadier-general, and two each for a colonel, lieutenant-colonel, major, mounted captain or lieutenant, adjutant and regimental quartermaster. Quarter: are furnished on the following basis: General, (commutation for quarters,) \$125 per month; Lieutenant-General, \$100 per month; major-general, six rooms; brigadier-general or colonel, five rooms; lieutenant-colonel or major, four rooms; captain or chaplain, three rooms; and first or second lieutenant, two rooms—all of which may be commuted at \$12 per room per month.

Note.—The law provides that no allowances shall be made to officers in addition to their pay, except quarters and forage furnished in kind.

Mileage at the rate of eight cents per mile is allowed for travel under orders.

The pay of cadets at the U.S. Military Academy, West Point, was fixed at \$540 per annum, by Act of Aug. 7th, 1876, instead of \$500 and one ration per diem, (equivalent to \$609.50) by former laws.

The pay of private soldiers runs from \$156, (\$13 a month and rations,) for first two years, to \$21 a month and rations, after twenty years service.

The following is a list of generals who have commanded the army since 1778, with the dates of command as far as can be ascertained from the official records:

Major-General George Washington, June 15, 1775, to December 23, 1783.

Major-General Henry Knox, December 23, 1783, to June 20, 1784.

Lieutenant-Colonel Josiah Harmer, general-in-chief by brevet, September, 1788,

Lieutenant-Colonel Josiah Harmer, general-in-chief by brevet, September, 1788, to March, 1791.

Major-General Arthur St. Clair, March 4, 1791, to March, 1792.

Major-General Anthony Wayne, April 11, 1792, to December 15, 1798.

Major-General James Wilkinson, December 15, 1798, to July, 1798.

Lieutenant-General George Washington, July 3, 1798, to his death, Dec. 14, 1799

Major-General James Wilkinson, June, 1800, to January, 1812.

Major-General Henry Dearborn, January 27, 1812, to June, 1815.

Major-General Jacob Brown, June, 1815, to February 21, 1828.

Major-General Alexander Macomb, May 24, 1828, to June, 1841.

Major-General Winfield Scott (brevet lieutenant-general), June, 1841, to November 1, 1861.

Ber I, 1861.
Major-General George B. McClellan, November 1, 1861, to March 11, 1862.
Major-General Heary W. Halleck, July 11, 1862, to March 12, 1864.
Lieutenant-General Ulysses S. Grant, March 12, 1864, to July 25, 1868, and as

General to March 4, 1869.

General William T. Sherman, March 4, 1869, to November 1, 1883, Lieutenant-General Philip H. Sheridan, since November 1, 1883.

## Statistics of the United States Army, 1789-1885.

The following table exhibits the strength of the regular army of the United States, from 1789 to 1879, as fixed by acts of Congress. The figures are for the aggregate of officers and men:

Year. Strength of Army.	Year. Strength of Army.

### UNITED STATES MILITARY ACADEMY.

The United States Military Academy at West Point was founded by act of March 16, 1802, constituting the corps of engineers of the army a military academy with fifty students or cadets, who were to receive instruction under the senior engineer officer as superintendent. Later acts established professorships of mathegineer officer as superintendent. Later acts established professorships of mathematics, engineering, philosophy, etc., and made the academy a military body, subject to the rules and articles of war. In 1815, a permanent superintendent was appointed, and a year later an annual board of visitors was provided for, to be named by the President, the Speaker of the House, and the President of the Senate. In 1843 the present system of the appointment of cadets was instituted, which assigns one cadet to each Congressional district and Territory in the Union, to be named by the Representative in Congress for the time being, and ten appointments at large, specially conferred by the President of the United States. The number of students is thus limited to 343. A large proportion of those appointed fail to pass the examination, and macro others to complete the course, the proportion being stated at fully one-half aitherto. The course of instruction requires four years, and is largely mathematical and professional. The discipline is very strict, even more so than in the army, and the enforcement of penalties for offences is inflexible rather than severe. The whole number of graduates from 1802 to 1877 was about 2,700, of whom 1,200 are deceased and about 1,500 living. Of those surviving, 800 are still in the army, and about 700 out of service.

2.700, of whom 1,200 are deceased and about 1,500 living. Of those surviving, 800 are still in the army, and about 700 out of service.

Appointees to the Military Academy must be between 17 and 22 years of age, at least five feet in height, and free from infirmity, and able to pass a careful examination in various branches of knowledge. Each cade admitted must bind himself to serve the United States eight years from the time of admission to the academy. The pay of cadets, formerly fifty dollars per month and rations, was fixed at \$540 per year, with no allowance for rations, by the act of 1876. The aggregate amount of meney appropriated by the United States for the Military Academy from 1808 to 1877 inclusive, was \$11,286,128, being an average of about \$149,49 annually. The number of actual members of the academy, by the official register of June. 1885, was 274. of June, 1885, was 274.

## NAVY OFFICERS.

Note.—Officers of the Navy must be retired from active service after sixty-two years of age, or may be retired after forty years' service, irrespective of age (except in certain grades). The pay of retired naval officers is 75 per cent of the sea-pay of the rank held at the time of retirement.

#### THE NAVY OF THE UNITED STATES.

Condensed from the Navy Register of 1885, and the Annual Report of the Secretary of the Navy, December, 1885.

There were in the service in 1885, 41 naval steam-vessels-all screw-propellers except four, besides 12 wooden sailing-vessels, 19 iron-clad vessels, 2 torpedo-rams, and 18 tugs: total, 87, of which comparatively few are in efficient service. The number of guns is 514.

The active list of the Navy is composed of 1 admiral, 1 vice-admiral, 7 rear-admirals. 18 commodores, 45 captains, 85 commanders, 74 lieutenant-commanders, 251 lieutenants, 79 lieutenants junior grade, 188-ensigns, 76 naval cadets (who have passed the four years' academic course, and are performing two years' service at sea before final graduation), and 201 naval cadets on probation at the Naval Academy, all of whom are officers of the line.

Of the staff there are 1 surgeon-general, 15 medical directors, 15 medical inspectors, 50 surgeons, 68 passed assistant surgeons, 14 assistant surgeons, 1 paymaster-general. 18 pay directors, 18 pay inspectors, 48 paymasters, 27 passed assistant paymasters, 19 assistant paymasters, 1 engineer-in-chief, 69 chief engineers, 85 passed assistant engineers, 78 assistant engineers, 24 chaplains, 12 professors of mathematics, 1 secretary for the admiral and 1 for the vice-admiral, 1 chief constructor, 11 naval constructors, 8 assistant constructors, and 10 civil engineers.

The warrant officers consist of 88 boatswains, 37 gunners, 51 carpenters, 29 sailmakers, and 87 mates.

The retired list is composed of officers of the line, as follows: 48 rear-admirals, 15 The retired list is composed of omeers of the line, as follows: 48 rear-admirals, 16 commodores, 11 captains, 12 commanders, 19 lieutenant-commanders, 24 lieutenants, 16 lieutenants junior grade, 11 ensigns. Staff officers, viz.: 21 medical directors, 4 medical inspectors, 7 surgeons, 5 passed assistant surgeons, 6 assistant surgeons, 11 pay directors, 1 pay inspector, 3 paymasters, 2 passed assistant paymasters, 1 assistant paymaster, 17 chief engineers, 26 passed assistant engineers, 26 assistant engineers, 2 civil engineers, 1 naval constructor, 7 chaplains, and 6 professors of mathematics. Warrant officers, viz.: 19 boatswains, 16 gunners, 9 carpenters, and 18 sailmakers.

18 saimakers.

The active list is therefore composed of 1021 officers of the line, 580 officers of the staff, and 192 warrant officers; total, 1,793 officers of all grades.

The retired list is composed of 156 officers of the line, 141 officers of the staff, 57 warrant officers, and 6 professors of mathematics; total, 360.

There were (July, 1885) in the service, provided for by the Navy appropriation act for the fiscal year 1886, 7500 enlisted men, and 750 boys.

The marine corps consists of 85 commissioned officers, 384 non-commissioned officers, 30 musicians, 96 drummers and fifers, and 1500 enlisted men; total, 2095.

### THE UNITED STATES NAVAL ACADEMY AT ANNAPOLIS.

The United States Naval Academy was opened October 10, 1845, and the credit of its foundation is attributed to Hon. George Bancroft, then Secretary of the Navy, under President Polk. The course of instruction, designed to train midshipmen for the Navy, at first occupied five years, of which three were passed at sea. Various changes have been made in the course of instruction, which was made seven years in 1850, four years in 1851, and six years (the last two of which are spent at sea.) March 3, 1873, where it now remains. The Naval Academy, first located at Annapolis, Maryland, was removed to Newport, R. I., in May, 1861, but re-established at Annapolis in September, 1885, where it now is, occupying lands formerly known as Fort Severn. The Academy is under the direct care and supervision of the Navy Department. There are to be allowed in the Academy one naval cade for every member or delegate to the House of Representatives, appointed at his nomination, Department. There are to be allowed in the Academy one naval cadet for every member or delegate to the House of Representatives, appointed at his nomination, one for the District of Columbia, and ten appointed at large by the President. The number of appointments which can be made is limited by law to twenty-five each year, named by the Secretary of the Navy after competitive examinations, the cadets being from 14 to 18 years of age. The successful candidates become students of the Academy and receive the pay of naval cadets—\$500 per annum. Cadets who graduate are appointed in the order of merit to the lower grades of the line and engineer corps of the Navy and of the marine corps, as fast as vacancies occurs. But such appointments cannot be made in excess of vacancies, and graduates who receive no appointments get an honorable discharge with one year's sea pay. The course of instruction is thorough, involving a close pursuit of mathematics, steam engineering, physics, mechanics, seamanship, ordnance, history, law, etc. The whole number of students in 1883 was 190. The graduating class of 1883 numbered \$M\$ members. 54 members.

## STATE OF DELAWARE.—Dover.

STATE OFFICERS.	Name.	Term of Office.	Term began.	Term ends.	Salary.
Governor	None	4 years. 2 years.	Jan. 16, 1883. Jan. 21, 1883. Jan. —, 1885.	Jan. 16, 1887 Jan. 21, 1885. Jan. —, 1887	1,000 1,450 700 200
Supt. of Pub. Schools Attorney-General State Librarian	John W. Paynter.	5 years. 2 years.	Oct. 8, 1884 Jan. 21, 1883	Oct. —, 1889	1,500 2,000 450

JUDICIARY, SUPREME COURT.—Chief Justice, Jos. P. Comegys. Associate Justices, Wm. G. Whiteley, John W. Houston, Edw. Wootton. Chancellor, Willard Saulsbury. Term, for life. Appointed by Governor. Salary, Chief Justice and Chancellor, \$2,500 each; Associate Justices, \$2,200. Clerk, Joseph Burchnell.

Amount of State debt, December 22, 1883, \$864,750, all funded at 4 per cent.

The State holds interest-paying securities (railroad, etc) to the amount of \$1,168,799, and is actually out of debt. The annual recepts were \$149,069.56 in 1883, and the annual expenditures \$138,188.11 for year ending December 22, 1883. Of the tax receipts no less than \$64,150 was from licenses, \$40,428 from tax on railroads and passengers, and nothing from taxes on real and personal property, in the whole State. It results that Delaware is the least-taxed community in the Union, so far as the expenses of State government are concerned. There is no State valuation of property penses of State government are concerned. There is no State valuation of property for taxation.

Electors must have paid a County tax, assessed at least 6 months before election

to entitle them to suffrage.

JUDICIARY, SUPREME COURT.—Chief Justice, John H. Mulkey; Associate Justices, Alfred M. Craig, Benj. R. Sheldon, Simeon P. Shope, Benj. D. Magruder, John M. Scholfield, John M. Scott. Term, 9 years each. Elected by the people. Salary, \$5,000 each.

Illinois has no State debt. State receipts for year 1885, \$3,500,000. State expenditures for year 1885, \$3,000,000. Amount raised by taxation, \$3,000,000. Amount of taxable property as assessed, 1884; Beal, \$57,829,388; personal, \$157,-124,671; railroad, \$60,987,317; total, \$796,341,376. Rate of State tax, 42 cents on \$100. 124,071; railroad, 500,987,317; total, \$796,341,376. Rate of State tax, 42 cents on \$100. There is no capitation tax.

The State taxation forms but a small part of the aggregate amount raised by tax. The County taxes were about \$5,000,000; City taxes, \$7,000,000, and the Town and District taxes, \$12,000,000.

The State Constitution now prohibits cities or counties from subscribing to railroad or other corporations, and limits municipal debts to 5 per cent on aggregate taxable property.

Fenner, 4 years; term of office 12 years; all appointed by the Governor, and confirmed by the Senate; Salary of each, \$5,000. Amount of State Debt, January 1, 1882, \$18,196,833, funded.

Louisiana adopted a new State Constitution, December 2, 1879, which provided for

Louisiana adopted a new State Constitution, December 2, 1879, which provided for refunding the State Debt in bonds bearing 2 per cent. interest for 5 years, 3 per cent. for 15 years, and 4 per cent. thereafter. The debt (about 20 million dollars) was previously funded at 60 per cent. of face value.

Besides this, and the \$12,171,950 (which represents an extension of the 1874 consols, which funded the whole debt at 60 cents on the dollar), the State owes overdue interest of the years 1874 to 1880. In 1884 the debt was made a uniform 4 per cent.

State Receipts for year ending January 1, 1883, \$1,490,615.71.
State Expenditures for year ending January 1, 1883, \$1,455,031.83.
Amount raised by taxation, year ending January 1, 1882, \$1,714,984.01; viz.: Licenses, \$223,172; Auction Sales, \$2,285; Property Tax, \$1,297,948.
Amount of Taxable Property as assessed for 1880: Real, \$122,889,315; Personal, \$85,570,646; total, \$181,459,961. Rate of State Tax, 574 mills on \$1. A Poll Tax of \$1 is levied on males over 21 years, for public schools, yielding \$24,724 in 1880.

General Statement of State Bonds issued: Southern Vermont Railroad, 1890, \$200,000.
Coast Defence, 1883, \$8,000; Troy & Greenfield Railroad, 1895–1897, \$14,195,028,20; Boston, Hartford & Erie Railroad, 1900, \$3.618,729.40; Bounty Fund, 1883, 1894, and 1895, \$8,403,148.90; War Fund, 1888, \$1,005,419; Danvers Lunatic Hospital, 1894, 1896, and 1897, \$1,500,000; Harbor Improvements (new), 1896, \$300,000; Worcester Lunatic Asylum, \$1.100.

State Receivits for year adding Ian. 1, 1998, on account of management of the state

State Receipts for year ending Jan. 1, 1885, on account of revenues, \$5,579,207.06; on account of Funds, \$5,923,132.55.

State Expenditures for year ending Jan. 1, 1885, on account of Current Expenditures, \$8,405,193.53 (including Public Debt, \$1,620,328.30); on account of Funds, Loans, etc., \$5,461,581.48.

Amount raised by Taxation, 1884, for State purposes, \$2,702,922.

Total Taxes raised in Massachusetts, year ending May 1, 1884, for State, County, City, and Town purposes, including Highway or Road Tax, \$22,882,720, being about \$15.13 per capita of the population. No less than 89 per cent. of this was levied for municipal purposes.

municipal purposes.

Amount of taxable property as assessed: real, \$1,258,452,712; personal, \$498,427,066.

Total, Jan. 1, 1885, \$1,756,879,778.

Total number of polls in this State, 1884, subject to tax of 2 dollars, 511,907. Total amount of poll-tax, 1884, \$1,014,701. Payment of this tax is a condition of suffrage.

Rate of State Tax, year ending Jan. 1, 1885, 85% cents on \$1,000.

The State Tax is derived from these principal sources: 1. General list, tax on property, \$2,000,000; 2. Tax on corporations (on capital stock, machinery, real estate, valuation, \$500,555,407), \$2,162,223, of which, however, \$1,728,217 was distributed to cities and towns where the stockholders reside, only \$436,016 going into the State Treasury; 3. Tax on bank stock, \$1,220,283, of which \$337,899 remained in the Treasury, the residue being paid to cities and towns on bank shares, owned by residents; 4. Insurance Taxes and Licenses, \$329,846; 5. Savings Bank Taxes, \$789,686; 6. Liquor Licenses, \$251,778. Licenses, \$251,778.

The net debts of towns and cities in Massachusetts amounted to \$63,595,568 in 1885.

JUDICIARY, SUPREME COURT.—Chief Justice, J. A. P. Campbell. Associate Justices, J. M. Arnold, Timothy E. Cooper; term of office, 9 years; appointed by the Governor and Senate; salary of each, \$8,500. Clerk, Oliver Clifton.
Amount of State Debt, January 1, 1884, \$2,965,282,06.

The report of the State Treasurer, January 1, 1884, says that to arrive at a correct understanding of the financial condition, it is necessary to deduct the amounts due the Chickasaw and Common School Funds, upon which only the annual interest is to be paid. Subtracting these amounts, \$2,404,566.46, and the cash balance in the treasury January 1, 1884, \$228,989.60, there remains only \$331,725.06, as the net State Debt of Mississippi, according to the official statement.

State receipts for year ending January 1, 1884, \$746,864.75.
State expenditures for year ending January 1, 1884, \$745,866.24.

State expenditures for year ending January 1, 1884, \$745,266.24.

Amount raised by taxation same year, \$497,188.08.

Amount of taxable property as assessed, 1883: Real, \$87,596,173; personal, \$39,-158,754.

Rate of State tax on \$100, 25 cents.
Of the State taxes collected, \$96,692.97 was from tax on railroads and express, telegraph, insurance, and banking companies; \$84,100 from licenses to retail liquor; \$114,567 from a "Privilege tax" on merchants, lawyers, banks, hotels, shows, etc. A poll-tax of \$1 is imposed on males from \$1 to 55 years, for the school fund; preducing \$176,177 in 1880.

JUDICIARY, SUPREME COURT.—Chief Justice, W. N. H. Smith; Associate Judges, Thos. S. Ashe, A. S. Merrimon; term, 8 years; elected by the people; salary, \$2,500 each; Clerk, William H. Bagley.

By Funding Law of February, 1879, the sum of \$12,683,045 of the State debt was recognized as valid, and ante-war bonds funded at 40 per cent of face values, while new R. R. bonds were scaled at 25 per cent of their face, and funding bonds of 1866 and 1868 at 15 per cent of face value. All the new consolidated bonds run 30 years, at 4 per cent, the first coupon of 2 per cent having been paid January 1, 1881. The sum total of new funding bonds authorized is \$3,618,511, and the amount issued up to December 1, 1885, is \$2,954,850, cancelling the sum of \$9,627,445 of the old bonds. Old bonds still outstanding, \$2,999,600. Other bonds of the State, amounting to about \$18,000,000, were unprovided for in this compromise.

State Receipts for year ending December 1, 1885. \$386,681,40.

State Receipts for year ending December 1, 1885, \$386,681.40.

State Expenditures for the year ending December 1, 1885, \$800,681.40.

Amount raised by taxation, 1884, \$418,649.50.

Amount of taxable property as assessed: Real, \$124,135,377; personal, \$77,087,346; total, \$201,222,728

Rate of State Tax, 1885, 3¾ mills on the dollar, or 37¼ cents on \$100. A capitation tax of 84 cents is imposed on each male, between 21 and 50 years, for support of schools and of the poor.

JUDICIARY, SUPREME COURT.—Chief Justice: Ulysses Mercur, to Jan., 1887, salary, \$8,500; Justices: Isaac G. Gordon, to Jan., 1888; Edward M. Paxson, to Jan., 1896; John Turnkey, to Jan., 1899; James P. Sterrett, to Jan., 1900; Henry Green to Jan., 1902; Silas M. Clark, to Jan., 1904. Elected by the people for 21 years. Salary, \$8,000 each.

Amount of State Debt, Jan. 1, 1885: Funded, \$19,084,288; unfunded, \$880,718.86. Of the funded debt \$7,767,800 drew 5 per cent. interest, and \$11,450,000 drew 314 and 4 per

cent.

The State held Jan. 1, 1885, in stocks of incorporated companies, \$5,160,913; in sinking fund, \$3,474,801; net public debt over and above assets, \$10,448,578.60.

State Receipts for year ending Dec. 1, 1884, \$4,711,595.60 (exclusive of loans).

State Expenditures for year ending Dec. 1, 1884, \$4,877,515.68 (exclusive of sik'g fund).

Amount raised by taxation, \$6,495.704.36 for State purposes. Aggregate taxes for all purposes, general and local, \$38,000,000.

Amount of taxable property as assessed: Real estate (not taxed by the State), \$1,600,000,000; personal property as assessed: Real estate (not taxed by the State), \$1,600,000,000; personal property as assessed: Real estate (not taxed by the State), \$1,600,000,000; personal property as to solve the state of State tax, 40 cents on \$100.

No tax is levied in Pennsylvania on real estate for State purposes. The tax on personal property, at the very low valuation current, produced only \$374.819 in 1883, out of total tax receipts of over \$6,000,000. Most of the large revenues of the State are derived from taxes on corporations. Witness the following: Tax on capital stock of corporations in 1884, \$1,585,727; tax on gross receipts, \$767,929; tax on bank stock, \$373,135; commutation of tonnage tax (Penn. R. R. Co.), \$460,000; collateral inheritance tax, \$461,465; licars on taxes, \$140,715; tax on rete earnings or income, \$71,616; tax on loans, \$140,715; tax on write, wills, deeds, charters, etc., \$216,939; tax on foreign insurance companies, \$280,561.

A State or county tax must have been paid by each elector within 2 years, but there

is no State poll-tax.

JUDIGIABY, SUPREME COURT.—Chief Justice, T. W. Deaderick; Associates, W. F. Cooper, T. J. Freeman, Peter Turney, J. B. Cooke; term of office for each, 8 years; elected by the people; salary of each, \$4,000.

Amount of State debt January 1, 1885, principal and interest, \$28,786,066.39.

By the Compromise and Funding Act of May 20, 1882, Tennessee funded its "legally issued bonds," with all accrued interest thereon, at 60 per cent of the face value, in new 30-year bonds of 1882, bearing 3 per cent for two years, 4 per cent next two years, 5 per cent for next two years, and 6 per cent for remaining 24 years. About eight millions of these compromise bonds were issued up to July, 1883. The State Legislature in 1883 repealed this act, and funded the debt at 50 per cent face value, with 3 per cent interest, except the old State debt proper of \$2,118,000, for which new oper cent bonds are issued at face value. Up to January 1, 1885, eight million bonds have been funded, leaving about twenty million unfunded.

State excepts, for two years ending December 19, 1884, \$2,346,384.

State expenditures, for two years ending December 19, 1884, \$1,701,139.

Amount raised by taxation, 1884; State, \$354,902,97, of which merchants' licenses paid \$115,739; tipplers' licenses, \$141,533; other privilege taxes, \$77,000, and about

\$600,000 property-tax.

Amount of property as assessed, 1884: real and personal, \$226,844,184; railway property, \$34,850,171. Rate of State Tax, 1884, 30 cents on each \$100.

A State Poll-tax of \$1.00 is levied for schools, producing in 1880 \$232,472.

\* Clerk of the District Court, and ex-officio Secretary and Treasurer.

\*Clerk of the District Court, and ex-officio Secretary and Treasurer.

The Territory of Alaska was purchased by the United States from the Russian Government in 1867 for the sum of \$7,200,000. By act of Congress in 1870 Alaska was made a military and collection district, the Territory remaining unorganized. The laws of the United States relating to customs, commerce, and navigation were extended over it by act of July 27, 1868, cognizable by the United States Courts of Washington, Oregon, and California, and the same statute made it unlawful to kill furseals except under regulations of the Secretary of the Treasury under lease to the Alaska Commercial Company at \$55,000 per annum.

By act of May 17, 1884, "providing a civil government for Alaska," Congress created a District Government providing for a Governor, a District Court (sitting at Sitka in May, and at Wrangell in November). The clerk of this court is made ex-officio Secretary and Treasurer of the District of Alaska. He is also recorder of deeds, mortgages, and mining claims, and register of wills. A United States Marshal and District Attorney were provided for. The act further creates four Commissioners having the powers of Commissioners of the United States Circuit Courts, and of Justices of the Peace, to reside at four designated settlements in Alaska, to hold courts of record subject to the supervision of the District Judge in all testamentary and probate matters, habeas corpus, etc.

bate matters, habes corpus, etc.

The laws of Oregon are declared to be the law in the District of Alaska when not in
The act appropriates the sum of \$25,000 for conflict with those of the United States. The act appropriates the sum of \$25,000 for education without reference to race, under direction of the Secretary of the In-

Alaska is created a land-district with a land-office at Sitka, with the Marshal as Surveyor-General, the Clerk as Receiver of Public Money, and the Commissioner residing at Sitka as ex-officio register of the land-office. The value of the Alaska fisheries in 1880 was \$2,661,640, being surpassed by only seven States in the Union.

Dakota alone, of all the Territories, has six Justices of the Supreme Court, appointed by the President and Senate.

North Dakota numbered, in 1884, 33 counties, with a tax valuation of \$39,460,221. South Dakota, with 47 counties, had an assessed valuation in 1884 of \$44,594,362. A division of the Territory, which is of great extent, surpassing in area any other of the organized Territories (having 149,100 square miles, or 95,424,000 acres), has been persistently urged, and is favored by a great majority of the inhabitants. A bill for the partition of the Territory and the admission of South Dakota to the Union as a State has long been before Congress.

Dakota is resiminately an acricultural Territory, its chief element of wealth be-

Dakota is preëminently an agricultural Territory, its chief element of wealth being the wheat crop. The grain produced is claimed to be superior to any other wheat, having the least moisture in the grain.

having the least moisture in the grain.

The capital of the Teritory was removed from Yankton to Bismarck in 1883. The principal towns are Fargo, in North Dakota (with a tax valuation of \$6,624,136), Sioux Falls, Jamestown, Bon Homme, Grand Forks, Deadwood, Bismarck, and Yankton. There are ten United States Land-offices in Dakota, and over a million of acres in homestead settlement and cash-entry claims were made in 1894. The population of the Territory numbered 185,177 in 1890, and is estimated upon the basis of the vote in November, 1884 (86,764), at between 400,000 and 500,000.

Amount raised by taxation, year ending Dec. 1, 1884, \$273,008.71. Territorial expenditure, year ending Dec. 1, 1884, \$175,900.37. Territorial receipts, year ending Dec. 1, 1884, \$274,215,271. Rate of Territorial tax, 1885, 3 mills on the dollar, or 30 cents on \$100.

**\$**100. Territorial debt, November, 1885, \$568,700, contracted principally for public build-

ings, at 5 and 6 per cent. Valuation of property, 1885, real and personal, \$106,007,307.

In 1884, the Democratic and National Greenback parties united on a "Fusion" Electoral Ticket in Michigan. The vote for Cleveland given above represents the strength of both. The vote polled for M. W. Field, Greenback Butler elector-at-large, was 41,400; that for J. W. Flanders, Cleveland elector-at-large, was 149,835. Besides the Fusion vote of 189,361 given above, there were 753 "Straight" Butler votes, and imperfect and scattering 4,284 votes, the total vote being 405,470.

Of the scattering votes in 1880, 1,517 were cast for Dow, Prohibition candidate for

President.
In 1882, 11,974 of the scattering were for Howe, Greenback candidate for Gov-

In 1883, of the scattering vote, the Prohibition candidate for Secretary had 18,816, and the Greenback candidate 7,221.

In 1884, two Judges of the Court of Appeals—Andrews and Rapallo—were re-elected by a vote almost unanimous, receiving 1,089,414 votes each against 31,596 cast for others.

In 1883, the Secretary of State and Legislature were carried by the Republicans, and the other State officers by the Democrats by pluralities varying from 18,630 on Attorsey-General to 18,842 on State Engineer.

In 1885 the Prohibition candidate for Governor received 30,867 of the 34,443 votes

above reckoned as "scattering," and the Greenback candidate polled 2,130 votes.

The Ohio Legislature of 1886-87 stands (with Hamilton County reckoned Democratic):

Senate		17 58	8 Dem. 6 Rep.
Joint ballot	72	75	3 Rep.

If Hamilton County (in which all the seats are contested) is given to the Republicans, the Legislature will have a heavy Republican majority on joint ballot.

Of the scattering votes in 1884, 8,508 were cast for St. John, Prohibition; 3,321 for Butler, Greenback; and 12 for Mrs. Lockwood, Equal Rights candidate for President. The 27,405 scattering votes in 1880 were cast for Weaver, Greenback candidate for President.

NOTE.—The above is the vote cast in 1884 in 173 counties of Texas for the leading Elector on each ticket. Besides this there were cast in four counties the following votes, which were received in irregular form and omitted in the official count on technical grounds:

 Cleveland.
 Blaine.

Note.—Numerous variations in the Presidential vote are found in the different tables published. One principal source of discrepancy is in taking the vote for different Electors, of either party, as representing the vote for President. As the votes for Electors vary greatly, some tables take the highest vote cast for any one Elector; others, the highest cast for any Elector-at-large; and others still, the average vote cast for all the

nighest cast for any Lector-at-large; and others still, the average vote cast for all the Electors of each party.

\* In these three States, Iowa, Michigan, and Nebraska, there was a "fusion" of the Democratic and the National Greenback parties, on one Electoral ticket.

† In Missouri and West Virginia, there was a "fusion" of the Republican and the National Greenback parties, on one Electoral ticket.

- National Greenback parties, on one Electoral ticket.

  1 Includes 66,809 over 21 (mostly Chinese) who had not the right to vote.

  2 Besides the vote here reported, there were 895 Republican votes cast in Georgia, for a bolter's or "Whig Republican" electoral ticket, not counted for Blaine.

  3 Includes 5,622 over 21 (mostly Chinese and Indians) who were not qualified voters.

  4 In Texas, 12 votes were cast for Belva A. Lockwood, Equal Rights candidate.

  3 The blank and scattering votes reported were: Connecticut, 6; Georgia, 895; Kansas, 459; Louisiana, 458; Michigan, 4,284; Nebraska, 47; New Hampshire, 6; New Jersey, 784; New York, 4,260; Oregon, 50; Texas, 12; Vermont, 27; West Virginia, 2; Wisconsin, 72. Total, 11,362.

NOTE.—Numerous variations in the Presidential vote are found in the different tables published. One principal source of discrepancy is in taking the vote for different Electors, of either party, as representing the vote for President. As the votes for Electors vary greatly, some tables take the highest vote cast for any one Elector; others, the highest cast for any Elector; at large; and others still, the average vote cast for all the Electors of each party.

1. In Louisiana, two Republican Electoral tickets were voted for: the regular Republican, and the Beattle. or Grant Republican. The latter received about 9,740 votes, not returned in the first table published

 In Maine, the Hancock Electoral ticket was styled "Fusion," containing 3 Demo-cratic and 4 Greenback Electors. Besides this, a "Straight" Greenback Electoral ticket was voted for, with Weaver's name at the head.

3. The above vote in Nevada and Tennessee is from the State Officers. Other statements vary largely in the vote of both parties.

4. The footings in Texas are correct, as rendered to the Secretary of State, but three Counties made no return of votes for President, (Denton, Galveston and McMullen.) If these cast as many votes for Electors as for Governor, it would increase Hancock's vote in the State, 5,820, and Garfield's 1,746, and Weaver's 593.

5. These figures are the finally corrected returns in the Office of the Secretary of State. Earlier statements gave Garfield 45,567 votes, and Hancock 18,316 votes.

6. Two Democratic Electoral tickets were voted for in Virginia, the Regular or Debt-paying Hancock Ticket, and the Re-adjuster, or Mahone Hancock Ticket. Both are added together in the table.

added together in the table.

7. Of the acutering votes, 10,305 were cast for Neal Dow, "Prohibition" candidate for President, and 767 votes for John W. Phelps, "American" or Anti-Secret-Society candidate.

8. The Ricctoral vote of Georgia was cast irregularly, on the 2d Wednesday of December, instead of the first Wednesday, as required by Act of Congress. In the count of the Ricctoral vote, Feb. 8, 1881, Congress declared Hancock to have received 185 votes, if Georgia were counted, and 144 votes, if not counted; that in all the counter of the Ricctoral votes, and the votes, and was duly elected.

#### ELECTORAL VOTE FOR PRESIDENT.

At each election from 1860 to 1884.

<sup>\*</sup> In 1872, Horace Greeley, Democratic and Liberal-Republican candidate for President, having died before the Electoral vote was cast, the Greeley electors voted as above for Thomas A. Hendricks, in five States. Kentucky, Georgia, and Missouri cast 18 Electoral votes for B. Gratz Brown of Missouri, for President; Georgia, 2 votes for C. J. Jenkins of Georgia, and Missouri 1 vote for David Davis of Illinois; and 17 votes irregularly cast, were not counted by Congress.

1 Eleven Southern States did not vote in 1864.

2 Mississippi, Texas, and Virginia did not vote in 1868.

Previous to the election of 1804 each elector voted for two candidates for President; the one receiving the highest number of votes, if a majority, was declared elected President; and the next highest Vice-President.

<sup>†</sup> Three States out of thirteen did not vote, viz.: New York, which had not passed an electrical law; and North Carolina and Rhode Island, which had not adopted the Constitution.

<sup>†</sup> There having been a tie vote, the choice devolved upon the House of Representatives. A choice was made on the 36th ballot, which was as follows: Jefferson—Georgia, Kentucky, Maryland, New Jersey, New York, North Carolina, Pennsylvania, Tennessee, Vermont, and Virgina—10 States; Burr—Connecticut, Massachusetta, New Hampshire, and Rhode Island—4 States, Blank—Delaware and South Carolina—2 States.

Per Cent. of Increase from 1870 to 1880:

NOTE.—The inhabitants of Alaska and the Indian Territory (both unorganized as yet) are not included in the above total. The census of Alaska in 1880 showed: White, 392; Oreoles (issue of intermarriages between the whites and natives), 1,683; Aleuts, 1,660; Innuits, 17,488; Indians, 8,655; total, 30,178.

The Indian Territory is estimated to contain 60,000 to 75,000 inhabitants.

The Indians included in the census in each State and Territory are those reckoned as civilized, or outside of tribal organizations. Indians not taxed are by law excluded from the census. Estimates of their numbers vary widely—from 200,000 to 350,000 (the latter as estimated in the census of 1870), while the latest census or estimate of the Indian agencies, as reported in 1881 to the Commissioner of Indian Affairs, gives 246,417 Indians, excluding Alaska. The whole population of the United States exceeds 50,500,000, including Indians and Alaska.

In the Chinese column (from want of space elsewhere) have been reckoned 148 Japanese

# POPULATION OF THE UNITED STATES IN 1870 AND 1880.

From the Official Returns of the Tenth Commus, 1880, as revised in 1882.

NOTE.—In cases where counties are left blank, they have usually been consolidated with sther counties, or have been organized since the date of the former census.

White, 19 137, Colored, 1,352, including 914 Chinese, and 140 Indians.

Population of the Towns and Cities of the United States having a population of 4,000 or upwards in 1880, compared with the Census of 1870.

(Frem the Official Returns of the Tenth Census, corrected in 1882.)

Note.—In previous editions of the American Almanac, the population of places having over 7,500 inhabitants in 1880 was given, including in many cases the population of entire townships exceeding that number of people. The present list embraces all cities and villages numbering 4,000 inhabitants or upwards, without regard to township boundaries, which would in many cases increase the aggregate to larger figures.

#### THE METRIC OR DECIMAL SYSTEM.

as applied to weights and measures, the metric system has been adopted by France, Germany, Italy, Spain, Portugal, Belgium, Netherlands, Greece, Mexico, Brazil, Peru, Chill, etc. Switzerland, Denmark, and Austria have partially adopted it, and it is legalized or permissive (not compulsory) in the United States and in Great Britain. As applied to measures of length, the standard unit is the metre, ascertained with mathematical exactness to be one ten-millionth part of a ter restrial meridian. The unit of volume (or litre) is the capacity of a cubical vessel measuring one tenth of a metre on its edges; and the unit of weight is the actual weight of distilled water which will fill such a vessel. The following tables exhibit the various designations of weights and measures under the metric system, and their equivalents in existing American or English weights and measures, as legalized by act of Congress, July 27, 1866.

#### MEASURES OF LENGTH.

# DENSITY OF POPULATION IN THE UNITED STATES—NUMBER OF INHABITANTS TO THE SQUARE MILE IN EACH STATE.

NOTE.—The figures of this table have been obtained by dividing the population by the total land area of the State or Territory, Alaska (unorganized) being emitted.

From the Official Returns of the Tenth Census, 1880.

#### THE CUSTOMS TARIFF OF GREAT BRITAIN.

No protective duties are now levied on goods imported, Customs duties being charged solely for the sake of revenue. Formerly the articles subject to duty numbered nearly a thousand; now they are only twenty, the chief being tobacco, spirits, tea, and wine. The following is a complete list:

#### From the Statistical Abstract of the United Kingdom.

<sup>\*</sup> The whole quantity liable to be issued under the act of July 2, 1862, is 9,600,000 acres.

\*The whole quantity liable to be issued under the act of July 2, 1862, is 9,600,000 acres. Norg...—Under an act of Congress approved Sept. 4, 1841, each State thereafter admitted to the Union was granted 500,000 acres of land for purposes of internal improvement; 46,080 acres (72 sections) for a State University; 32,000 acres (50 sections) for the purpose of erecting public buildings at the Capital; and \$2,000 acres for a penitentiary or State prison. The same grant of 500,000 acres was extended to the States of Alabama, Arkansas, Illinois, Indiana, Louisiana, Michigan, Mississippi, and Missouri. The quantity of land thus granted is estimated at 9,000,000 acres. By act of July 2, 1862, each State, old or new, was granted 30,000 acres of the public domain for each Senator and Representative in Congress (or land scrip to that amount) for the purpose of endowing a College of Agriculture and the Mechanic Arts in each State. Of the 9,600,000 acres estimated to be due the States under this munificent land-grant, about 8,200,000 acres have already been located.

### NUMBER OF ELECTORS IN FRANCE.

In the French Republic, suffrage is practically universal, there having been inscribed on the registers of the Ministry of the Interior by an official report dated April 1, 1876, 9,946,701 legal voters, out of a population the same year of 36,905,738 in France. This gives 1 voter to every 4 inhabitants, nearly. In the United States, by the census of 1870, the ratio of legal voters to population was 1 to 4½, nearly In Great Britain, where suffrage is restricted, the proportion is 1 voter to every 12. inhabitants.

# STATISTICS OF FIRE-INSURANCE AND LOSSES IN THE UNITED STATES.

NINE YEARS' LOSSES BY FIRE.

The yearly destruction of property by fire in this country is alarming. This loss is largely due to the national crime of incendiarism, which is fostered by reckless competition among insurance companies, inadequate State laws on the subject of fire inquest, as well as the careless manner in which buildings are erected through laxity in enforcing proper laws.

<sup>\*</sup> From the Chronicle Fire Tables, N.Y.,'85. † From the Spectator Co.'s Insurance Year-Book, N.Y.,'85.

The statistics of aggregate losses by fire have been compiled from reports of fire departments, from fire-insurance agents, and from local newspapers. They have been closely compared with the figures of total losses given in various States by the official reports of the Insurance Departments.

The statistics of 1884 show that 30 per cent. of the aggregate losses by fire were the result of in-

In 1884, there were 384 human lives lost by fire in the United States.

#### BUSINESS OF THE SUEZ CANAL FROM ITS OPENING.

This great ship canal, one hundred miles in length, connects Suez, on the Red Se with Port Said, on the Mediterranean. It was commenced by a company, aided harge subscriptions of the governments of Egypt, France and England, in 1858, at opened November 17, 1869. It is 72 feet wide at the bottom, about 300 feet at the su face, and 26 feet in depth, easily passing the largest vessels. The controlling inter in the canal was purchased since 1874 by the British government, which now holds it The following table exhibits the prodigious increase of business on this great work:

### TREASURY DEPARTMENT,

Washington, D. C., January 1, 1886.

The foregoing estimation, made by the Director of the Mint, of the value of the forsign coins above mentioned, I hereby proclaim to be the values of such coins expressed in the money of account of the United States, and to be taken in estimating the values if all foreign merchandise, made out in any of said currencies, imported on or after lanuary 1, 1886.

DANIEL MANNING,

Secretary of the Treasury.

#### TABLE FOR INVESTORS.

THE following table shows the rate per cent of annual income to be realized from stocks or bonds bearing any given rate of yearly dividends or interest, from 1 to 5 per cent, when purchased at various prices from 10 to 300 per cent. This table pplies equally well to both stocks and bonds, and has nothing to do with the ength of time which a bond has to run to maturity.

For example: To ascertain what rate of annual interest will be realized on a bond or stock which bears 7 per cent per annum and can be purchased at 92 (i.e., at 92 per cent of its par value, whatever the par may be), find 92 in the column of "purchase price" and follow that line across to the column headed "7 per cent," which will show the correct figures—in the present instance, 7% per cent.

were in fact interest-bearing securities, payable at certain times, as stated on the notes. They entered into circulation for but a few days, if at all, and, sinds maturity, those presented have been converted into other interest-bearing bonds, or paid for in cash, interest included. Norg. 2.—The amount of fractional silver in circulation in 1860, 1861 and 1862, cannot be stated. The amounts stated for 1876, 1877, 1878 and 1879, are the amounts coined and issued since Jauuary, 1876. To these amounts should be added the amount of silver previously coined which has

some into circulation.

<sup>\*</sup> Loans thus marked are not redeemable at any fixed period, but are of the

nature of perpetual annuities.

+ Loans thus marked are redeemable only by purchase of the government.

Other loans, having different years after the rate of interest, are redeemable at the last-named date.

The aggregate cost of building and repairing fences on farms during the census year 1879-80 was returned at \$77.763,473.

The total cost of farm fertilizers purchased during the census year was \$28,586,397.

The latter two items of agricultural statistics were not collected in the census of 1870, nor that of 1860.

It will be observed that the increase in number of all kinds of live stock during the ten years 1870-1880 was very large. But the aggregate value of live stock is actually somewhat less in 1880 than the valuation recorded in 1870, being \$1,525,276,457 for the latter year.

In all comparisons of values between 1870 and 1880, it should be borne in mind that in the former year gold was at an average premium of 25.3 per cent.

#### BANK OF ENGLAND RATES OF DISCOUNT.

From 1694, the year of its Foundation, to 1885.

Norz.—It is to be understood that the discount rate against any given date was the rate charged until the next succeeding date. For example, June 19, 1884, the Directors fixed the rate on first-class bills at 2 per cent, which continued until October 9, 1884, when it was raised to 3 per cent.

Average Annual Rates, per 1000 of Population, of Deaths, Births, and Marriages, in Nine Nations of Europe.

[From the Annual Reports of the Registrar-General of Great Britain.]

	DEA	THS.	Bir	CHS.	PERSONS MARRIED.		
Countries,	Average for 20 years. 1853–1872.	Average for 10 years. 1871-1880.	Average for 20 years. 1853-1872,	for 10-	Average for 20 years. 1853-1872.	Average for 10 years, 1871-1880,	
England Scotland Ireland Austria Belgium Denmark France taly Netherlands	21.8 31.9 22.8 20.8 24.4 80.2 25.7 29.7	21.4 21.7 18.3 31.2 22.6 19.3 24.8 29.7 24.3 29.7 24.3	34.8 34.9 	35.4 35.1 26.5 39.9 32.2 81.2 25.6 36.9 36.9 37.2 39.8	16.9 14.8 	16.2 14.4 9.4 17.1 14.4 15.6 15.1 15.8 16.1	

It will be seen from the above table that the death-rate is much higher in Italy, Austria, Spain, and Germany, than in France or England, while the mortality of the most northern countries of Europe—Denmark and Sweden—is less by ten per cent than in Great Britain, and fifty per cent lower than in Italy or Austria.

## UNITED STATES POSTAL REGULATIONS,

As Revised under Act of March 8d, 1885.

#### First-Class Mail Matter.

LETTERS.—This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter, under class three. Postage—2 cents each ounce, or additional fraction of an ounce, to all parts of the United States.

United States.
On local or drop letters, at free-delivery offices, 2 cents. At offices where there is no free delivery by carrier, 1 cent.
Prepayment by stamps invariably required. Postal cards, 1 cent.
Registered letters, 10 cents in addition to the proper postage. The Post-Office Department or its revenue is not by law liable for the loss of registered mail matter.
For immediate delivery, 10 cents additional postage, prepaid by special stamp, only at offices designated by the P. O. Department.

#### Second-Class.

REGULAR PUBLICATIONS.—This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four pound or fraction thereof, prepaid by special stamps. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates. On newspapers and periodicals malled by other than publishers or news agents, 1 cent for each 4 ounces or fractional part, thereof. tional part thereof. Third-Class.

Mail matter of the third class includes books, circulars, unsealed publications for advertising purposes, and other matter wholly in print, legal and commercial papers filled out in writing, photographs, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

MS. unaccompanied by proof-sheets, letter rates.

Limit of weight, 4 pounds each package, except single books—weight not limited.

Postage, 1 cent for each 2 ounces or fractional part thereof—invariably prepaid by

stamps. Fourth-Class.

Embraces merchandise and all matter not included in the first, second, or third class, which is not liable to injure the mail matter. Limit of weight, 4 pounds.

which is not liable to injure the mall matter. Limit of weight, 4 pounds.

Postage, 1 cent each ounce or fraction thereof, prepaid.

All packages of matter of the third or fourth class must be so wrapped or enveloped that their contents may be examined by postmasters without destroying the wrappers.

Matter of the second, third, or fourth class containing any writing, except as here specified, or except bills and receipts for periodicals, or printed commercial papers filled out in writing, as deeds, bills, etc., will be charged with letter postage; but the sender of any book may write names or addresses therein, or on the outside, with the word "from" preceding the same, or may write briefly on any package the number and names of the articles inclosed.

#### Postal Money Orders.

An order may be issued for any amount, from one cent to one hundred dollars, inclusive, but fractional parts of a cent cannot be included.

The	fees for orders	are: On ordei	s not ex	cceeding	<b>\$</b> 10		g cents.
\$10 to	\$15	10	cents.	\$50 to	<b>\$</b> 60		0 cents.
\$15 to	\$80		, "	\$60 to 9	\$70		5 "
\$30 to	\$40	20	, "	\$70 to	\$80		0 "
\$40 to	\$50			\$80 to	8100		5 ' "
Whe	n a larger sum	than 100 dolla	rs is red	uired, ac	80 8100 iditional orders	must be o	btained:

but no more than three orders will be issued in one day from the same post-office to the same remitter in favor of the same payee.

POSTAL NOTES, for any sum under five dollars, are sold at any money-order post-office—price 8 cents each. These are payable to the bearer, at any designated post-office, within three months after their date.

## Free Delivery.

- The free delivery of mail matter at the residences of people destring it is required by law in every city of \$0,000 or more population, and may be established at every place containing not less than \$0,000 inhabitants. Number of free-delivery offices, 178. The franking privilege was abolished July 1, 1878, but the following mail-matter may be sent free by legislative saving-clauses, viz.:

  1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

  2. Seeds transmitted by the Commissioner of Agriculture, or by any member of Congress, procured from that department.

  3. All periodicals sent to subscribers within the county where swinted

Congress, procured from that department,
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels

All communications to Government officers, and to or from members of Congress. are required to be prepaid by stamps.
